Rural definition of health: a systematic literature review ...

This review examines the status and trends of water reallocation from rural to urban regions based on academic literature and policy documents. Methods: We conduct a systematic literature review to establish the global reallocation database (GRaD). This process yielded 97 published studies (academic and policy) on rural-to-urban reallocation.

A systematic review is a complex piece of research that aims to identify, select and synthesise all research published on a particular question or topic. Systematic reviews adhere to a strict scientific design based on pre-specified and reproducible methods. They provide reliable estimates about the effects of interventions.
