This book is conceived to help students in the preparation of the subject "Financial Accounting" corresponding to the Bilingual Degree in Business Administration and Management. All the exercises outlined in the book are solved according to the provisions contained in the General Accounting Plan (Royal Decree 1514/2007), whose ultimate goal is to adapt Spanish accounting regulations to the International Financial Reporting Standards (IFRS) adopted under EU Regulations. The English version of the General Accounting Plan available on the web page of the Accounting and Auditing Institute is used throughout the book in the resolution of the exercises. Este libro está concebido para ayudar a los estudiantes en la preparación de la asignatura "Financial Accounting" correspondiente a los primeros cursos del Grado Bilingüe en Administración y Dirección de Empresas. Todos los ejercicios del libro están resueltos de acuerdo a las disposiciones contenidas en el Plan General de Contabilidad (Real Decreto 1514/2007), cuyo objetivo último es el de adaptar la normativa contable española a las Normas Internacionales de Información Financiera (International Financial Reporting Standards) adoptadas por la Unión Europea como lenguaje contable común para sus Estados miembros. En algunos casos, las soluciones de los ejercicios se basan en los tratamientos contables más simplificados previstos en el Plan General de Contabilidad de Pequeñas y Medianas Empresas (PYME), aprobado por el Real Decreto 1515/2007. El objetivo principal de esta obra es presentar un texto didáctico y comprensible que contenga los fundamentos básicos de la disciplina contable, como el método de la partida doble por el que las transacciones se registran en términos de cargos y abonos. Por otra parte, el libro también se centra en el tratamiento contable de las operaciones básicas más habituales realizadas por una empresa relacionadas con varias áreas, tales como compras y ventas, ingresos y gastos, activos no corrientes, existencias, clientes, proveedores, financiación básica, impuesto sobre beneficios, etc. A lo largo del libro se utiliza para la resolución de los distintos ejercicios la versión en inglés del Plan General de Contabilidad (General Accounting Plan) disponible en la página web del Instituto de Contabilidad y Auditoría de Cuentas. El libro también incluye un glosario de términos para ayudar a los estudiantes a entender la terminología anglosajona relacionada con la Contabilidad Financiera

Every German student of business administration needs to have a basic understanding of accounting according to German GAAP, and thanks to globalization many courses about German accounting are nowadays held in English to improve the language skills of the students. In addition many foreign subsidiaries of German companies have to prepare their part of consolidated financial statements according to German GAAP. So far, these professionals can rely on German literature only. The first part of the book offers a compact introduction to financial statements according to German GAAP, the second part comprises exercises on individual topics with solutions and case studies for in-depth and effective learning. This introduction provides ideal support for German-speaking students taking English-speaking lectures in the field and is furthermore valuable for professionals looking for explanations when preparing the data for consolidated financial statements. Includes exercises and case studies for practice Ideal textbook for students of German Universities attending English-speaking lectures in financial management Ideal introduction for professionals with a succinct explanation and additional support with a glossary and vocabulary

Excerpt from Bookkeeping and Accounting Exercises, Vol. 2 Part I of Bookkeeping and Accounting Exercises is designed for students of elementary bookkeeping. Part II is intended for more advanced students of bookkeeping and for those making a study of higher accounting. The exercises are designed to accompany and supplement the work of any textbook, but not to replace it; and the various problems are intended as graded drills in advanced bookkeeping and accountancy and to accustom the student to thought and research on different lines of business. These drills may be used for personal study, for class drills, for home work, or for examination purposes, and part or all of an exercise may be assigned as a lesson as may seem advisable. They are adapted for use in advanced courses

in High Schools or Commercial Colleges, and for Schools, Colleges, or Universities conducting courses in Accountancy. While the questions are carefully graded, some of them are made fairly difficult because plenty of easy matter can be found in the regular text books. No rules are given, but where necessary the instructor should make suggestions as to the procedure in working out the more difficult examples. Special features of this book are the extended discussions of Business and Financial Statements, the chapter on Auditing, and the complete Manufacturing Set; also the treatment of Corporations, and the General Review Questions and Problems. The onward march of business and the facility with which great industries are now conducted demand equal advancement in methods of accounting and systematizing. To meet this need.
