Relational Competence Theory states that there are competencies that promote the establishment and maintenance of positive relationships. Danish family therapist and writer Jesper Juul defined relational competence as a loosely interconnected set of relational values and attitudes. The current study examines if relational values and attitudes can

and Mental Health Applications opens out the RCT literature with emphasis on its applicability to interventions, and updates the state of research on RCT, examining what is robust and verifiable both in the lab and the clinic. The authors begin with the conceptual and empirical bases for the theory, and sixteen models demonstrate the range of RCT concerns and their clinical relevance, including:
