Check with the seller prior to purchase. -- An accessible and well-written approach to advertising. Advertising tracks the changes in today's dynamic world of media and marketing communication—as well as the implications of these changes to traditional practice—and presents them to readers through an accessible, well-written approach. The ninth edition highlights the increasing importance of consumers as the driving force in today's advertising strategies, social media, and the Internet evolution/revolution. It also includes an increased IMC and brand focus.

This work adopts a multidisciplinary approach to corporate communication, including management communication, public relations, organizational behavior and change, marketing communication, and advertising. The many-faceted approach adopts the perspective of a practicing communications professional, emphasizes corporate branding, and focuses on an integrated approach to communication.

EBOOK: Principles and Practice of Marketing, 9e

EBOOK: Principles and Practice of Marketing

Isabell Koinig examines how a standardized promotional message for a fictitious over-the-counter (OTC) medication is perceived by consumers in four different countries (Austria, Germany, the U.S., and Brazil), and the degree to which it contributes to their self-empowerment. Building on previous research, informative appeals were expected to not only be most appealing, but also to aid consumers in making qualified and reasonable decisions, educating and “empowering” them by strengthening their beliefs in their own capabilities. A field study on three continents revealed mixed promotional messages to be most effective with regard to both ad evaluation and consumer self-empowerment.

Advertising has today become an indispensable marketing tool of the corporate world. The advent of the Internet, e-commerce, data analytics, and computer-aided designing has revolutionized the advertising world. This book provides an in-depth coverage of the concepts related to advertising, media planning, and nuances of advertising in each media source. Divided into five parts, the text covers advertising basics, advertising research and strategy, creativity and advertising, advertising media, and integrated marketing communications. The book describes how to develop and execute an effective advertising campaign by understanding consumers' mindset and conducting advertising research. It also enables the reader to assess, review and modify an advertising campaign through case studies of several brands. The third edition of the book appropriately incorporates a chapter on 'Digital Marketing', and 'Rural Marketing' along with revamping and reorganising contents of book to enhance the learning process. **KEY FEATURES** • A large number of ads, current as well as from the past, are used to elucidate the concepts. • The text helps the reader analyze an ad copy and find its relevance to the product. • Case studies on popular brands are provided throughout the text to assist the reader in understanding the key elements of successful brand building. • The book is primarily intended to serve as a text for postgraduate students of management and the students pursuing various courses in advertising. **TARGET AUDIENCE** • MBA • PG Diploma in Advertising & PR • PG Certificate Programme—Sales & Marketing Communication
