A woman's memories are not her own in this supernatural mystery, "a new direction for a well-respected New Zealand writer" (The Timaru Herald). When a violent car accident leaves Aimee Carmichael with nearly no memories of her childhood, she ventures back to her family home with hopes that it will jog her ruined mind. But instead of the answers she's seeking, more questions arise as memories start to come back—memories that don't belong to her. As mysterious recollections invade her mind and haunting images plague her dreams, tragic secrets come to light and Aimee begins to question everything she thought she remembered about those she loves—and of herself.

A heartwarming memoir of a couple who takes in a homeless man and the life-altering effect the experience has on all three of them. For years, “Fisher King Mike” wandered L.A., preaching to his people. On occasion he’d share an open mic night with Michael Konik, who offered a curious and sympathetic ear, particularly when the Fisher King lamented his separation from his wife (who he claimed was Selena Gomez). As the pair began to trust one another, confusion and distance gave way to something that astounded them both. *The Unexpected Guest* gives love profound new dimensions with its story of family, friendship, and the meaning of home. Konik offered food and a pair of pants when his new friend came by, and wondered how much he owed the troubled Fisher King? a question all of America faces with the nation’s ongoing

homelessness crisis. When Konik and his wife gave Fisher King Mike a place in their home, handy as he turned out to be with household projects, they witnessed a guest become a caretaker. Gone was the man who gave sermons about his supposed estate next door to Kanye West. Gone was the man drifting through life. What each never saw coming was their own transformation and the lessons they'd learn about what it means not only to be good people, but simply to be human.

Praise for *The Unexpected Guest*

“Heartwarming, compassionate, and well-crafted, *The Unexpected Guest* gives voice to those rarely heard, compels you to look closer when you want to look away, and reveals the joy of caring for others.” ?Pete Earley, *New York Times*–bestselling author of *Crazy: A Father’s Search Through America’s Mental Health Madness*, 2007 Finalist for the Pulitzer

Prize “What a pleasure to read a book that is quick in pace, absent of cynicism, and packed with conversations and stories we desperately need. The Unexpected Guest exceeded my already high expectations. Michael Konik does something that few journalists, let alone politicians even attempt to do. He humanizes the people who are without shelter. I won't be soon forgetting “Fisher King Mike.”“?Dave Zirin, The Nation “A deft meditation on the ordinary magic that happens when you open your heart and home, one small step at a time. Poignant, timely, compulsively readable. Konik's story of family lingers long after the last page.” ?Jack McCallum, New York Times—bestselling author of Dream Team “Honest and entertaining, this book forces readers to confront the systems of inequality in which we are all implicated.” ?Kirkus Reviews

This is an essential aid in the initial design and planning of a project. The relevant building type is located by a comprehensive index and cross reference system, a condensed commentary covers user requirements, planning criteria, basic dimensions and other considerations of function, siting aspect etc. A system of references based on an extensive bibliography supports the text. In every section plans, sections, site layouts, design details and graphs illustrated key aspects of a building type's design. Most illustrations are dimensioned or scaled - the metric system of measurement is used throughout, and the equivalent in feet/inches can easily be read either off a graphic scale on the page or from the built-in conversion table. The illustrations are international in origin and include both well know and less famous designers. Architects Data is primarily a handbook of

building types rather than of construction techniques and details. However its treatment of components (such as doors and windows) and of spaces for building services is extremely thorough, since consideration of this data is an essential element of the planning process. The opening pages of basic data on man and his buildings cover critical subjects such as scale, drawing practice, noise, light and space for the same reason. Particular attention has also been paid to the implications of energy conservation, means of escape from fire and the needs of the elderly and the disabled.
