koala | Facts, Diet, & Habitat | Britannica

Koalas are marsupials, related to kangaroos. Most marsupials have pouches where the tiny newborns develop. A koala mother usually gives birth to one joey at a time. A newborn koala is only the size of a jelly bean. Called a joey, the baby is blind, naked, and earless. As soon as it's born, this tiny creature makes its way from the birth canal to its mother's pouch.

All About Koalas Level I Nonfiction

6. 'Koala' is thought to mean 'no drink' in the Australian Aboriginal language. It was thought that koalas didn't need to drink because of the moisture they get from munching on juicy eucalyptus leaves all day. However, they do drink from various water sources when needed, especially during heatwaves and in times of drought. 7.
