You have heard about it in Pay It Forward, you've heard about it in Six Degrees of Separation , but no single author has given as much consideration to the laws of influence as King Duncan does here. This reader-friendly book looks at chaos theory--how small changes can trigger monumental transformations. The example of this theory most often cited is that of Edward Lorenz, who discovered in the 1960s that the tiniest movement in the air in one part of the world can produce dramatic changes in weather patterns months later in another part of the world. Thus, a butterfly flapping its wings in Malibu might set into motion a series of events that could produce a monsoon months later in Malaysia. The Law of Influence states that one life touches another and potentially both lives are changed; through this change, potentially the entire world is changed. Even chance events--a smile, a word spoken at just the right moment, or even people like John Howard, who helped a young English journalist return home. The young journalist was Winston Churchill, and the rest is history. More important than explaining what the law of influence is, this book explains how individuals can use it to create a life worth living, and to share the lessons to create families and communities that work together for the greater good. Together, people aware of and involved with their own influence on others have the potential to make amazing things happen. King Duncan is a professional speaker and author of two other books, Amazing Grace: Humor to Heal Mind, Soul, and Body , and The One-Minute Motivator . In 1993, he was the national winner of the International Platform Association's prestigious Speaker's Ladder Award. He lives in Knoxville, Tennessee, where he owns and manages his communications company, Seven Worlds Coporation.

Her husband had everything: wealth, privilege, position, and a royal title. Yet instead of him, Princess Diana won over the whole world. Why? She understood the Law of Influence.

If only Robert McNamara had known the Law of Solid Ground, the War in Vietnam, and everything that happened at home because of it, might have turned out differently.

Brothers Dick and Maurice MacDonald came as close as they could to living the American Dream, without making it. Instead a guy named Ray Kroc did it with the company they had founded. It happened because they didn't know the Law of the Lid.

With an introduction on using the principles of The Servant in your life and career, this book redefines what it means to be a leader. In this absorbing tale, you watch the timeless principles of servant leadership unfold through the story of John Dally, a businessman whose outwardly successful life is spiraling out of control. He is falling miserably in each of his leadership roles as boss, husband, father, and coach. To get his life back on track, he reluctantly attends a weeklong leadership retreat at a remote Benedictine monastery. To John's surprise, the monk leading the seminar is a former business executive and Wall Street legend. Taking John under his wing, the monk guides him to a realization that is simple yet profound: The true foundation of leadership is not power, but authority, which is built upon relationships, love, service, and sacrifice. Along with John, you will learn that the principles in this book are neither new nor complex. They don't demand special talents; they are simply based on strengthening the bonds of respect, responsibility, and caring with the people around you. The Servant's message can be applied by anyone, anywhere--at home or at work. If you are tired of books that lecture instead of teach; if you are searching for ways to improve your leadership skills; if you want to understand the timeless virtues that lead to lasting and meaningful success, then this book is one you cannot afford to miss.

Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership--where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position--People follow because they have to. 2. Permission--People follow because they want to. 3. Production--People follow because of what you have done for them personally. 4. People Development--People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.
