DescriptionUsing diaries written from an early age, Rebecca gives an evocative portrayal of her childhood in Hertfordshire. She reflects on her upbringing with her parents and her four siblings and tries to trace the origins of her mental health problems. She acknowledges the difficulties in her past such as her father's heavy drinking and the stresses within the family which pervade into her grown up self. Many of the memories are happy ones but there is an underlying insecurity and anxiety which linger into her adult life. About the AuthorRebecca Morgan was born in Hertfordshire in 1951. She obtained a degree in Modern History and Politics from Sheffield University in 1973, followed by a Post-Graduate Diploma in Librarianship from Birmingham Polytechnic in 1975.In 1978 she became a Chartered Librarian and has worked for 20 years for Sheffield Libraries, Archives and Information Service. She has experienced severe depression, postnatal depression and psychotic illness during her life.Rebecca is married with one son and lives in Sheffield. This is her second book, following her vivid picture of her years of mental illness in Hertfordshire and Sheffield portrayed in her first book: "The Nest of Sanity" also published by Chipmunka Publishing.Rebecca Morgan is a pseudonym.

Humorous fiction. Graphic Novel. Created by Reg Smythe in 1957, Andy Capp became one of the most popular British newspaper comic strips. Jobless Andy creates havoc for his long-suffering wife Flo, spending most of his time in the pub playing darts and snooker, or getting into fights on the football pitch. This new, full-colour collection is packed with hundreds of Andy Capp strips from the Daily and Sunday Mirror Archives.

This title contains easy recipes for those following the slimming world diet.

History of Illustration' covers image-making and print history from around the world, spanning from the ancient to the modern. Hundreds of color images show illustrations within their social, cultural, and technical context, while they are ordered from the past to the present. Readers will be able to analyze images for their displayed techniques, cultural standards, and ideas to appreciate the art form. This essential guide is the first history of illustration written by an international team of illustration historians, practitioners, and educators.

The role of design in the formation of the Silicon Valley ecosystem of innovation. California's Silicon Valley is home to the greatest concentration of designers in the world: corporate design offices at flagship technology companies and volunteers at nonprofit NGOs; global design consultancies and boutique studios; research laboratories and academic design programs. Together they form the interconnected network that is Silicon Valley. Apple products are famously "Designed in California," but, as Barry Katz shows in this first-ever, extensively illustrated history, the role of design in Silicon Valley began decades before Steve Jobs and Steve Wozniak dreamed up Apple in a garage. Offering a thoroughly original view of the subject, Katz tells how design helped transform Silicon Valley into the most powerful engine of innovation in the world. From Hewlett-Packard and Ampex in the 1950s to Google and Facebook today, design has provided the bridge between research and development, art and engineering, technical performance and human behavior. Katz traces the origins of all of the leading consultancies—including IDEO, frog, and Lunar—and shows the process by which some of the world's most influential companies came to place design at the center of their business strategies. At the same time, universities, foundations, and even governments have learned to apply "design thinking" to their missions. Drawing on unprecedented access to a vast array of primary sources and interviews with nearly every influential design leader—including Douglas Engelbart, Steve Jobs, and Don Norman—Katz reveals design to be the missing link in Silicon Valley's ecosystem of innovation.

Explore the secret history of Exeter through a fascinating selection of stories, facts and photographs.

Despite the boom in scholarship in both Comics Studies and Memory Studies, the two fields rarely interact—especially with issues beyond the representation of traumatic and autobiographical memories in comics. With a focus on the roles played by styles and archives—in their physical and metaphorical manifestations—this edited volume offers an original intervention, highlighting several novel ways of thinking about comics and memory as comics memory. Bringing together scholars as well as cultural actors, the contributions combine studies on European and North American comics and offer a representative overview of the main comics genres and forms, including superheroes, Westerns, newspaper comics, diary comics, comics reportage and alternative comics. In considering the many manifestations of memory in comics as well as the functioning and influence of institutions, public and private practices, the book exemplifies new possibilities for understanding the complex entanglements of memory and comics.

The Vikings hold a particular place in the history of the West, both symbolically and in the significant impact they had on Northern Europe. Magnus Magnusson's indispensable study of this great period presents a rounded and fascinating picture of a people who, in modern eyes, would seem to embody striking contradictions. They were undoubtedly pillagers, raiders and terrifying warriors, but they were also great pioneers, artists and traders - a dynamic people, whose skill and daring in their exploration of the world has left an indelible impression a thousand years on.

Examines the fundamentals of storytelling in comic book style and offers advice on story construction and visual narratives.
