Unit 1: How do living things stay alive? This unit focuses on  
internal and external factors that affect the survival of  
organisms. Practical activities should not be limited to  
assessment tasks; they may be used to introduce a biological  
concept, to build understanding of a biological concept or  
skill and to practise specific scientific skills, for example,  
microscopy, measurement of static and changing quantities,  
taxonomic classification and field study techniques such as  
quadrats ...
