Auditing & Assurance Services, First South African Edition, combines a genuine international perspective with South African examples and coverage of the landmark changes within the South African auditing environment. Key features include: South African content - The authors weave regionally specific content and examples throughout the text and cover the changes to the regulatory and corporate governance environment in South Africa. International perspective - Professional practice and regulation all over the world is driven by international events and initiatives. The clarified ISAs are fully integrated into the chapters with international real-world cases used to illustrate concepts and application. Systematic approach - The text gives students a deep understanding and working knowledge of fundamental auditing concepts and how they are applied. The core foundation of the text and its focus on critical judgements and decision-making processes prepare students for today's complex and dynamic audit environment. Student engagement - A student-friendly writing style and a variety of real-life examples make the text easily accessible. Each chapter ends with a comprehensive variety of materials to apply and test students' understanding of acquired knowledge.

BPP Learning Media is an ACCA Approved Content Provider. Our partnership with ACCA means that our Study Texts, Practice & Revision Kits and iPass (for CBE papers only) are subject to a thorough ACCA examining team review. Our suite of study tools will provide you with all the accurate and up-to-date material you need for exam success.

The P7 Passcards are a handy, A6 sized, spiral bound revision tool which you can carry with you to revise wherever, whenever. They summarise the key elements of the P7 syllabus into concise points and include many diagrams to help you memorise information and consolidate your knowledge. They also highlight topical issues and current developments.

The explosion of data analytics in the auditing profession demands a different kind of auditor. Auditing: A Practical Approach with Data Analytics prepares students for the rapidly changing demands of the auditing profession by meeting the data-driven requirements of today's workforce. Because no two audits are alike, this course uses a practical, case-based approach to help students develop professional judgement, think critically about the auditing process, and develop the decision-making skills necessary to perform a real-world audit. To further prepare students for the profession, this course integrates seamless exam review for successful completion of the CPA Exam.

Auditing counts! With recent incidents at WorldCom, Enron, Xerox, Tyco, and other companies, auditing has never been so important. Auditing is perhaps our single best defense in ensuring the integrity of our financial reporting system. That's why this new Eighth Edition of Boynton and Johnson's Modern Auditing focuses on decision making and the critical role auditors play in providing assurance about the integrity of the financial reporting system. Known for its clear writing and accessibility, this text provides comprehensive and integrated coverage of current developments in the environment, standards, and methodology of auditing. Features * Real-world examples relate issues discussed in the chapter to ethics, audit decision making, and the integrity of the financial reporting system. * Focus on Audit Decisions sections highlight key factors that influence an auditor's decisions. * Includes discussion of the role of the Public Company Accounting Oversight Board (PCAOB) Auditing Standards, and a chapter feature highlights PCAOB standards that differ from Generally Accepted Auditing Standards for private companies. * Expanded case material related to the integrated audit case (Mt. Hood Furniture) provides a variety of databases that allow students to utilize generalized audit software (IDEA) to accomplish various audit tasks. Multiple databases allow the case to be reused with different data from term to term. * A flowchart style chapter preview begins each chapter. * Chapter summaries reinforce important audit decisions included in the chapter. * End-of-chapter material organized by audit decisions provides a clear link between audit decisions discussed in each chapter and the problem material.

At a time when increased independence requirements for auditors, legal backing for auditing standards, and increased audit documentation requirements have occurred, this book examines key issues in the market for audit services in Australia. It investigates issues including: the understandability of audit and the state of the audit expectations gap; auditors' business acumen and industry expertise; the auditors' use of materiality; whether or not the increasingly prescriptive nature of auditing is creating a distraction from the 'real' audit task and stifling auditors' judgement; whether or not CLERP 9 reforms involving audit partner rotation and restrictions on non-audit service provision are efficient and effective and reactions to the increasing scrutiny of auditors and audit firms by regulators. With its thorough coverage of contemporary issues, this book intersperses the authors' summaries, interpretations and recommendations with the perceptions, expressed in their own words in order to faithfully convey their candid assessments, of users of audit reports, purchasers and suppliers of the audit product, auditing standard setters and regulators of the audit market.
