Poetry and Radical Politics in fin de siècle France explores the relations between poetry and politics in France in the last decade of the nineteenth century. The period covers the most important developments in modern French poetry: from the post-Commune climate that spawned the 'decadent' movement, through to the (allegedly) ivory-towered aestheticism of Mallarmé and the Symbolists. In terms of French politics, history, and culture, the period was no less dramatic, with the legacy of the Commune, the political and financial instability that followed, the anarchist campaigns, the Dreyfus affair, and the growth of Action française. This study demonstrates the connections between the anti-Symbolist reaction of the école romane of 1891 (in which Charles Maurras first made his name) and the far-right cultural politics of Action française in the early twentieth century. It also redefines many of the debates about late nineteenth-century French poetry by complicating the political engagement of the Symbolists in an era when the French 'intellectuel' as a national icon was being forged. McGuinness insists on profound continuities between the end of the nineteenth century and the beginning of the twentieth in terms of cultural politics, literary debate, and poetic theory, and shows how politics is to be found in unexpected ways in the least political-seeming literature of the period. The famous line by Péguy, that everything begins in mysticism and ends in politics, has an appealing sweep and grace. This book has its own more modest and specific version of a similar journey: it begins in Mallarmé and ends in Maurras.

A modern classic by Nobel Laureate J.M. Coetzee. His latest novel, The Schooldays of Jesus, is now available from Viking. Late Essays: 2006-2016 will be available January 2018. For decades the Magistrate has been a loyal servant of the Empire, running the affairs of a tiny frontier settlement and ignoring the impending war with the barbarians. When interrogation experts arrive, however, he witnesses the Empire's cruel and unjust treatment of prisoners of war. Jolted into sympathy for their victims, he commits a quixotic act of rebellion that brands him an enemy of the state. J. M. Coetzee's prize-winning novel is a startling allegory of the war between oppressor and oppressed. The Magistrate is not simply a man living through a crisis of conscience in an obscure place in remote times; his situation is that of all men living in unbearable complicity with regimes that ignore justice and decency. Mark Rylance (Wolf Hall, Bridge of Spies), Ciro Guerra and producer Michael Fitzgerald are teaming up to bring J.M. Coetzee's Waiting for the Barbarians to the big screen.

THE ACCLAIMED SEQUEL TO THE CHOSEN In desperation, the Ruling Lord Suth searches within the sacred walls of Osrakum for Carnelian, his son, and Osidian, the God Emperor elect. He suspects the Empress Ykoriania is behind their disappearance and knows that if they are not found soon it is her other son, Osidian's brother Molochite, who will rule - with fearful consequences for the Three Lands. Captive of the tribes of the Earthsky, Carnelian is - for the moment - safe, and succumbs readily to the seasonal rhythms of tribal life, he is convinced by unexpected discoveries that it is fate that has bought him there.He grows to love these simple people and hopes for sanctuary among them. But the dark forces Carnelian helped unleash in Osrakum begin to cast their shadow over his adopted home. He is witness to the awful oppression that the Masters - whom the tribesmen call the Standing Dead - have been inflicting on them for millennia. But even more terrible is the presence Carnelian has unwittingly brought with him. Potent and terrifying, it threatens everything he now holds dear in this new-found world. With The Standing Dead, Ricardo Pinto gives us a tumultuous new chapter in the Stone Dance of the Chameleon trilogy and confirms his place as one of fantasy's most singular and literate voices.

In this brief and readable study, noted biographer Edmund d’Auvergne recounts the life and times of Napoleon III and the times that reigned across Europe. An arch political schemer he capitalised on the ferment in French society that carried on even after the fall of his uncle, the Emperor Napoleon, to gain the summit of his power. However, his actions in power were frequently moderate in nature toward his French subjects, but his attempts to increase the power of France in Europe would ultimately be met by the crushing brilliance of a resurgent Prussia under Bismarck.

For children the day begins with a weight on the toes, long, angular, and many-faceted as a leg by Picasso. The stocking should be opened by candlelight: no other light is resonant at that high frequency of excitement. Christmas is one of the oldest of our traditions, more ancient than any present-day beliefs, and strong enough to have survived even the attacks of Puritans in the seventeenth century. Shortly after the end of World War II, Laurence Whistler set out to write “a guide to the festivals of England as they are and as they might be”: Christmas and its associated holidays formed one of the principal parts of his captivating narrative. Here, for example, is the radiant Kissing Bough, whose candles we lit before we had ever heard of a Christmas Tree. Here is the history of carols, Christmas Cards, and the tradition of ‘first footing’ on New Year’s Day. The chapters, written with the imaginative delight of a poet, explore the traditions of Christmas in England since its earliest times, ranging from Christmas Eve to Twelfth Night. This short work, which also contains beautiful illustrations by Robin Jaques and Joan Hassall, is a charming companion to anyone interested in the magic and tradition inherent in the Christmas Season. “A lovely benevolence; the author’s knowledge, his sense of values, his breadth of outlook are in evidence on every page.” John O’London’s Weekly “Possessing enchantment of matter, it has also enchantment of manner.” Time and Tide

Shortly after the end of World War II, Laurence Whistler set out to write ‘a guide to the festivals of England as they are and as they might be’: the result is a captivatingly readable and enchanting narrative, the ancient holidays revealed as a microcosm of the wheel of life in England. Christmas, New Year, Twelfth night, Easter, May Day, Whitsun, Midsummer, Harvest (and sixteen others) - these are the most ancient of our traditions, more ancient than any present-day beliefs, and strong enough to have survived even the attacks of Puritans in the seventeenth century. Here, for example, is the radiant Kissing Bough, whose candles we lit before we had ever heard of a Christmas Tree. Here is the way to colour and engrave Easter Eggs. Here are fireworks in all their extravagant variety. Or here is the history of the Valentine and the Christmas Card. Laurence Whistler has written this scholarly book with the imaginative delight of a poet. This new edition features an introduction by art historian James Russell. “His book has been written in delight and passes on delight to the reader... it has a lovely benevolence; the author’s knowledge, his sense of values, his breadth of outlook are in evidence on every page.” John O’London’s Weekly “There is scholarship here about the past, and delight in the festivals of today... a book that will be delightful to pick up again at any time of the year.” Sunday Times “Possessing enchantment of matter, it has also enchantment of manner.” Time and Tide “Its younger readers will find themselves educated, perhaps unconsciously, by publisher as well as author.” Observer “A charming book.” Country Life “A most charming and decorative volume.” Sunday Chronicle “Learning and common sense have gone to the making of this attractive, well-illustrated book.” Birmingham News “A delightful gift book for all the year round... altogether charming.” Edinburgh Evening News “A book very much out of the ordinary.” Sphere

Under an Imperial Sun examines literary, linguistic, and cultural representations of Japan's colonial South (nanpō). Building on the most recent scholarship from Japan, Taiwan, and the West, it takes a cross-cultural, multidisciplinary, comparative approach that considers the views of both colonizer and colonized as expressed in travel accounts and popular writing as well as scholarly treatments of the area's cultures and customs. Readers are introduced to the work of Japanese writers Hayashi Fumiko and Nakajima Atsushi, who spent time in the colonial South, and expatriate Nishikawa Mitsuru, who was raised and educated in Taiwan and tried to capture the essence of Taiwanese culture in his fictional and ethnographic writing. The effects of colonial language policy on the multilingual environment of Taiwan are discussed, as well as the role of language as a tool of imperialism and as a vehicle through which Japan's southern subjects expressed their identity--one that bridged Taiwanese and Japanese views of self. Struggling with these often conflicting views, Taiwanese authors, including the Nativists Yang Kui and Lü Heruo and Imperial Subject writers Zhou Jinpo and Chen Huoquan, expressed personal and societal differences in their writing. This volume looks closely at their lives and works and considers the reception of this literature--the Japanese language literature of Japan's colonies--both in Japan and in the former colonies. Finally, it asks: What do these works tell us about the specific example of cultural hybridity that arose in Japanese-occupied Taiwan and what relevance does this have to the global phenomenon of cultural hybridity viewed through a postcolonial lens?

Centuries before, the multiwave-drive ships had come to Morkath of the Caravan Stars -- bringing colonists, empires, confederations of plunderers. Finally, the planet was exhausted and left to descent slowly to barbarism. Now, savage tribal leaders fight over the blighted lands. Among these warriors is the young hunter Jamnar, who vows to reclaim Morkath from the demonic powers that grip it -- the dark god Shaphath, the priestesses of Astaphar, the evil priests called Kvuunuvun... Jamnar will have help in his quest. Prosperon, the interstellar castaway, will lead him to the Forbidden Temple of Telshasoth. But only if Jamnar dares to enter the temple's portals -- and seize the 3,000-year-old secret of a lost civilization -- can he hope to save his people, and his planet, from a still greater terror...

Bran Mak Morn is a hero of five pulp fiction short stories by Robert E. Howard. In the stories, most of which were first published in *Weird Tales*, Bran is the last king of Howard's romanticized version of the tribal race of Picts.

A collection of the Kull of Atlantis fantasy stories published before Robert E. Howard's tragic suicide in 1936. Known for his Conan and Solomon Kane characters, Kull of Atlantis is set in the same fictional realm as Conan. Fantasy and savagery at the dawn of time!
