Sample Size Calculations in Clinical Research / Shein ...

Chair: Shein-Chung Chow (FDA) Speaker: Chao Wang (FDA) ... In our proposed unblinded sample size re-estimation strategy, the new total sample size is calculated from the exact power function for the one stage using the estimated variance from the observed data of an internal pilot study (Stage 1) as the true variance. If the number of additional subjects is less than 4, then we stop here and ...
