In the modern administrative state, hundreds if not thousands of officials wield powers that can be used to the benefit or detriment of individuals and corporations.

When the

of the modulation of being, and contextualises his work within the intellectual history of philosophical traditions in the Islamic East. Reading and critiquing the works of Mulla Sadra from

an analytical perspective, this book pays particular attention to his text the Asfar, a work which, due to its complexity, is often overlooked.

Looking at the concept of philosophy as a
