Cat Mummies

Cat Mummies as Votive Offerings. Cat mummies discovered in early excavations at Bubastis were probably the first to be seen by Western explorers/archaeologists, but the cat cemetery unearthed at Beni Hasan (a site roughly 100 miles south of Cairo and known for its beautiful tombs), was carefully described by a Western observer. In 1886, near the rock-cut temple dedicated to the lion goddess Pakhet, a huge cat cemetery was discovered.

Cat mummies of ancient Egypt | C L Francisco

Scans of an ancient cat mummy revealed that the 2,500-year-old feline supposedly resting within the wrappings wasn't a single animal. Instead, the mummy held the partial remains of three cats...

Inside Ancient Egyptian Cat Mummy, Archaeologists Find the ...

Cats were mummified as religious offerings in enormous quantities and were believed to represent the war goddess Bastet. This cult was primarily centered at Thebes and Beni Hasan beginning in the Ptolemaic Period. In addition, thousands of cat mummies have been found at the catacombs of Saqqara. Cats who were bred to become offerings of this type usually died due to strangulation or the breaking of their necks.

Egypt cat mummies discovered in ancient tombs - BBC News

The Egyptians are well known for their mummies, including animal mummies. Egyptian pets include cats, dogs, mongooses, monkeys, gazelles and birds. Before animal mummies became a common practice, bronze statues depicting animals were used in funerary rites.

Cat Mummies - 'Young Archaeologists' Club - Archaeology for you

Animals such as bulls, crocodiles, cats, and falcons, were also mummified. The Ancient Egyptians kept some of the body parts lungs, liver, stomach, and intestines in canopic jars. It took about 70 days to complete the embalming of a body. The body was wrapped in linen and was then covered in a sheet called a shroud.

Egyptian Mummies Facts - History for Kids

As Le Figaro reports, the cat mummy was found to contain not just the remains of a cat, but a mixture of several of the four-legged friends. In fact, the combination seems a little random – the mummy's interior holds five hind legs and three incomplete tails. And there's a ball of textile in place of a head.
