C7 and C9 Industrial Engines Troubleshooting - Cat Data ...

Caterpillar C9 Problem. I am a chief engineer aboard a tugboat in Canada. I am having a problem with one of the generators, which is a C9D1 engine. The problem I am having is loss of RPM. When the engine is started, there is usually a cloud of dark smoke from the stack, which subsides after startup. The engine can be running without problem for hours, or even days before the problem begins.

Do you know of any past or current problems with the C9 ...

Cat C9 Catastrophic Engine failure. Coming back from the West Coast the C9 in my 06 Fleetwood Revolution blew. First indication was a burning oil odor in the cab. Pulled over immediately. At that point the engine died and the dash lit up like a Christmas tree. Result: 1/4 mile oil slick, 12" hole in the upper right corner of the block (Cam Side), ECM port and starter were blown off the engine, 2012 toad covered in Diesel oil.

---

Cat C9 Catastrophic Engine failure - iRV2 Forums

The Cat spec for fuel pressure on this generation of C9 is 55 at idle-75 psi at full load. This low fuel pressure was one of the causes for the check engine light to illuminate and for the engine derations/loss of power. This low fuel pressure also triggered the low turbo boost fault code to be logged .

---

C9 engine problem

The problems? 4 turbos, a water pump, 4 injectors, oil level sensor, fuel pump, compressor leaking oil and cat will not fix, exhaust regen problems multiple times, a serpentine belt, and an alternator and radiator (the last two are not cats fault).
