deficiencies, is complemented by a review on rural transformation policies aimed at addressing food insecurity and nutrition issues.

Updated estimates shows that the food security situation on the region continues to worsen since 2011-2013. For, the Near East and North Africa,

Download File PDF Chemistry

11% of the region's population – 50.2 million people – are undernourished. The findings of the report showed that the failure to reduce hunger in the area is closely associated with the increase in conflict and violence in several parts of the region, as also highlighted in last year's edition. While

the prevalence of undernourishment has risen from 23 to 26 percent in conflict countries since 2011-13, it has remained stable at about 5 percent in non-conflict countries. This year's report goes further to explore the relationship between food insecurity, economic growth and rural transformation. It
