Everyone's a New Yorker on Thanksgiving Day, when young and old rise early to see what giant new balloons will fill the skies for Macy's Thanksgiving Day Parade. Who first invented these "upside-down puppets"? Meet Tony Sarg, puppeteer extraordinaire! In brilliant collage illustrations, Caldecott Honor artist Melissa Sweet tells the story of the puppeteer Tony Sarg, capturing his genius, his dedication, his zest for play, and his long-lasting gift to America!the inspired helium balloons that would become the trademark of Macy's Parade. Winner of the 2012 Robert F. Sibert Medal and the NCTE Orbis Pictus Award.

From award-winning author Louise Greig and acclaimed illustrator Júlia Sardá comes an uplifting story about how to confront big emotions. Edís had mood begins as something really small, hardly a thing at all. But before long it grows, gathers pace, and spreads through the whole town. Can Ed sweep his troubles away?

You can learn from dancing classes dancing and exercise tips the secrets behind the kind of movement behind the dancing and exercise tips.

Twins Zack and Zoe investigate when someone mails Zach a soccer jersey, identical to the one he wears on his travel team, with no explanation.

This comprehensive book covers the everyday use and underlying principles of radiation dosimeters used in radiation oncology clinics. It provides an up-to-date reference spanning the full range of current modalities with emphasis on practical know-how. The main audience is medical physicists, radiation oncology physics residents, and medical physics graduate students. The reader gains the necessary tools for determining which detector is best for a given application. Dosimetry of cutting edge techniques from radiosurgery to MRI-guided systems to small fields and proton therapy are all addressed. Main topics include fundamentals of radiation dosimeters, brachytherapy and external beam radiation therapy dosimetry, and dosimetry of imaging modalities. Comprised of 30 chapters authored by leading experts in the medical physics community, the book: Covers the basic principles and practical use of radiation dosimeters in radiation oncology clinics across the full range of current modalities. Focuses on providing practical guidance for those using these detectors in the clinic. Explains which detector is more suitable for a particular application. Discusses the state of the art in radiotherapy approaches, from radiosurgery and MR-guided systems to advanced range verification techniques in proton therapy. Gives critical comparisons of dosimeters for photon, electron, and proton therapies.

Perfect for fans of Kathryn Erskine's Mockingbird and Holly Goldberg Sloan's Counting by 7s, this is a stunningly unique and poignant story of one girl's strength and courage as she decides who she is and what she will believe in. Behind the white-washed walls of the Arizona compound, life was simple. Follow the rules, "live in the light," and all would be well. Zylynn was excited to turn thirteen and begin the work of bringing others into the light, to save them from the liars and the darkness of the outside world. But when she is taken away by a man who claims to be her father, Zylynn is confused, and desperate to return to her home. Zylynn resists her new life!until she finds small comforts, like shampoo, the color pink, and strawberries. But as her thirteenth birthday approaches, Zylynn must make a difficult decision!to stay here with the enemy, or find her way back to the light. And neither may be what they seem.

Following the seventieth anniversary of the atomic bombing of Hiroshima, this is a new, very personal story to join Sadako and the Thousand Paper Cranes. Yuriko was happy growing up in Hiroshima when it was just her and Papa. But her aunt Kimiko and her cousin Genji are living with them now, and the family is only getting bigger with talk of a double marriage! And while things are changing at home, the world beyond their doors is even more unpredictable. World War II is coming to an end, and since the Japanese newspapers don't report lost battles, the Japanese people are not entirely certain of where Japan stands. Yuriko is used to the sirens and the air-raid drills, but things start to feel more real when the neighbors who have left to fight stop coming home. When the bombs hit Hiroshima, it's through Yuriko's twelve-year-old eyes that we witness the devastation and horror. This is a story that offers young readers insight into how children lived during the war, while also introducing them to Japanese culture. Based loosely on author Kathleen Burkinshaw's mother's firsthand experience surviving the atomic bombing of Hiroshima, The Last Cherry Blossom hopes to warn readers of the immense damage nuclear war can bring, while reminding them that the leniency in any war is often not so different from ourselves.

When Little Hedgehog's nest is blown away he wraps up warmly and sets off for Badger's house. But on his way Hedgehog meets lots of animals shivering in the snow. One by one, he gives them his cosy gloves, hat and scarf. But will Little Hedgehog make it through the storm to safety? Press the page and hear the noise in this wonderfully noisy story!

How We Go Home shares contemporary Indigenous stories in the long and ongoing fight to protect Native land and life.

Scientists, Mathematicians, and Inventors provides biographies of 200 men and women who changed the world by leaving lasting legacies in the fields of science, mathematics, and scientific invention. It fills a gap in the biographical reference shelf by offering far more than basic facts about a scientist's life and work: each entry describes not only the immediate effects of the individual's discoveries, but also his or her impact on later scientific findings.
