Neil Young took on
the music industry
so that fans could
hear his music—all

music—the way it
was meant to be
heard. Today, most
of the music we
hear is com-
pressed to a
fraction of its
original
sound, while analog
masterpieces are
turning to dust in
record company
vaults. As these
record-ings

disappear, music fans aren't just losing a collection of notes. We're losing spaciousness, breadth of the sound field, and the ability to hear and feel a ping of a triangle or a pluck of a guitar string, each with its own resonance and harmonics that

into silence. The
result is music that
is robbed of its
original
