Concrete Repair and Protection

Reinforced concrete can be a highly durable structural material requiring little or no maintenance. However, it is now recognised that without correct design, mixing, placement and curing, the durability of reinforced concrete may be impaired. The repair of concrete structures has been a key activity for over 30 years in the

The repair of concrete structures has been a key activity for over 30 years in the construction industry and Weber products have been specified as a solution from the start. Now the causes of concrete decay are better understood, it is clear that if more care had been taken at the time of construction by following good practice and using better quality materials then far fewer repairs would be ...
