NTA NET Topicwise Question Bank Based on Previous Papers - Paper 1 Teaching and Research Aptitude
With Sithannan 's book " Police Investigation-Powers, Tactics and Techniques " 4th Edition 2022, every Police Officer will be able to do a comprehensive investigation even if he/ she just follow the checklists given. The book is written in simple language, which can be easily understood by all Police Officers and will serve as a valuable tool/guide for every officer who has to investigate a crime, participate in the All India Police Duty Meet etc. This is a more exhaustive treatise than his initial one, prepared when he was working in the Police Training College and which is still used by Investigating Officers all over the state of Tamil Nadu. In his present work titled " Police Investigation: Powers, Tactics and Techniques " , the author has meticulously catalogued the tools available to a police officer to become a successful investigator. He has carefully listed the duties of Police Officers at various stages of the investigation and the legal and statutory supports officially available to an investigating officer. The book contains 25 chapters and 4 annexures. In all the chapters, the author describes the problems at hand in elaborate detail, supported by relevant statistical and legal data, drawn from authentic sources. The first chapter includes a discussion on the development of settled society, the origin of law in society and the emergence of military and police in developing societies. In the following chapters, the author has given an exhaustive account of the role and powers of Police in the registration of offences and taking up of the investigation. He has also discussed problems encountered by a Police Officer during the investigation, the trial till the judgement. The book dexterously deals with problems such as the jurisdiction of a Police Officer, the dying declaration of victims, the conducting of inquest, arrest, interrogation and confession of the accused, etc. Apart from Police Officers, Advocates, Law and Judicial Officers would also find this book very useful as a reference book. The reference to judgements pertaining to a host of criminal cases during the period 1965-2018 merit careful study by the guardians of Law. The checklist provided at the end of each chapter can serve as a ready-reckoner to the Police Officers at various stages of the investigation. A trainee and a veteran equally will find this book a useful aid. To cite an example, under chapter 14, " Arrest ", he has cited 37 landmark judgements. By reading these fourteen pages alone one can avert many a pitfall. While writing this book, the academic pursuit of the author is in full bloom, as he has drawn valuable and authenticated data from various enactments, official documents, court judgements and a vast domain of related literature of national and international significance. Moreover, in this scholarly work, the author does not limit himself to expressing his sentiments of fellowship to the investigating Police Officers but also is concerned more about their legitimate and authorized duties, responsibilities, jurisdiction, rights of the accused and the natural processes of the long arm of the law. That the Author 's utopian ideal of no innocent person should be punished and no offender should go unpunished can be seen to dominate the whole message of the book. For this purpose, the Author has taken extra pains to give a balanced treatment of the whole problem of crime and its investigation.
The Educart CBSE Mathematics Term I Question Bank 2022 is a focussed MCQ-based book for CBSE Term I Board Exam. Anchoring himself firmly on the ever-contested space of Indian Law and Legal Processes, and drawing substantive support from his rich and varied experience as a Law Enforcement Officer in the Police Department of Tamil Nadu, India, the author, V. Sithannan in presenting this scholarly work, has sought to fulfilll the legitimate requirements of Police Officers, Advocates, Judicial Officers, Social Activists, NGOs, Gender Activists and the general public. The Author's utopian ideal that no innocent person should be punished and no offender should go unpunished is the dominant message of the book. For this purpose, the Author has given a balanced treatment of the whole problem of crime and its investigation. The book contains 27 Chapters and 4 Annexures. For example, the 1st Chapter deals with the origin, growth and development of Military and Police and the succeeding chapters elaborate the structure, powers and the duties of police, the conduct of investigation, the first information report, the jurisdictional limitations of police, dying declaration, inquest, search and seizure, examination of witnesses, arrest, interrogation, confession, bail, remand and custody, test identification parade, tender of pardon to approver, letter rogatory, extradition, burden of proof and presumptions, Police diaries, final report, further investigation and maintenance of Police records. The comparative chart given to aid the Police Officers to conclude whether death is suicidal or homicidal or homicide in all forms of death that are encountered by the Police while conducting investigation will be of immense use with scientific accuracy. Another Chart provided indicating the procedural steps starting from the collection of evidence through the final analysis of the whole crime and its commission would surely empower the investigating officers with fool-proof methods of investigation. A most praise-worthy feature of the book is its detailed discussion on the immature juveniles, who are in conflict with law and the crimes against children and women. The annexure to the book is of immense use as a ready- reckoner, especially annexure I and II by which a Police Officer may easily find whether a particular offence in any of the most frequently used special enactment is cognizable, bailable etc. The Author has fulfilled the needs of the investigating Officers in the epilogue by providing 47 points which may go against the prosecution, and therefore, has given 48 tips for the successful prosecution of a criminal case by a Police Officer. Again, in the spirit of an academic researcher, the Author has given a catalogue of 724 Checklists in all the Chapters so that the readers would find the book highly informative to have a statutorily authorised answer to any doubt in a given situation in any of the investigative procedures. The citation of 785 landmark judgements of various High Courts and the Supreme Court for the period 1965-2008 in the appropriate chapters is another outstanding feature of the book, making it vade mecum for Police Officers, Advocates, Officers of Law and Courts and also for NGOs, Social Activists and Persons of Public Interest.

This book is a complete text for postgraduate/MBA students in hospital administration in various universities/medical colleges. It will also serve as a quick guide to the doctors managing the clinics and hospitals, and as a convenient reference to all the administrators responsible for handling hospital management in a modern set up.
Robert Aumann's groundbreaking career in game theory has spanned over 35 years. These two volumes provide convenient access to all of his major research—from his doctoral dissertation in 1956 to papers as recent as January 1995. Threaded through all of Aumann's work (symbolized in his thesis on knots) is the study of relationships between different ideas, between different phenomena, and between ideas and phenomena. "When you look closely at one scientific idea," writes Aumann, "you find it hitched to all others. It is these hitches that I have tried to study." The papers are organized in several categories: general, knot theory, decision theory (utility and subjective probability), strategic games, coalitional games, and mathematical methods. Aumann has written an introduction to each of these groups that briefly describes the content and background of each paper, including the motivation and the research process, and relates it to other work in the collection and to work by others. There is also a citation index that allows readers to trace the considerable body of literature which cites Aumann's own work.
