<u>Crutchfield Speaker Wire (16-gauge) Available in 5 ...</u>

Car stereos have eight wires for the traditional 4-speaker system – a positive wire and a negative wire for the front left, front right, rear left, and rear right speakers. Depending on the wiring configuration in your vehicle and the wiring harness adapter we offer, some of these may not be used.

How to Install a Car Stereo - Crutchfield

The resistance value comes from a long coil of wire inside each speaker called a voice coil. A voice coil is a coil of wire that, when placed inside a magnetic field, makes the speaker move and produce sound when driven by an amplifier. Speakers contain a long wound loop of wire called a voice coil.
