Your ticket to scoring high on the GMAT The new GMAT test includes a 30-minute Integrated Reasoning section with new question types; this new Integrated Reasoning section replaces one of the two 30-minute essays previously included in the test. CliffsNotes GMAT addresses this change and gives you ample practice opportunities in the book and on the accompanying CD-ROM. CD includes the book's test and subject reviews plus three bonus tests Learning modules in the review sections to help readers with different cognitive learning styles Expanded math review Strategies to reduce test-taking anxiety Visual graphic illustrations (flow charts, diagrams) to create multiple pathways toward learning Side bar notes of "tips, tricks or helpful hints" Computer strategies for the newly revised exam If you're preparing for the GMAT, CliffsNotes has you covered. CD-ROM/DVD and other supplementary materials are not included as part of the e-book file, but are available for download after purchase.

Mechanical Ventilation provides students and clinicians concerned with the care of patients requiring mechanical ventilatory support a comprehensive guide to the evaluation of the critically ill patient. assessment of respiratory failure, indications for mechanical ventilation, initiation of mechanical ventilatory support, patient stabilization, monitoring and ventilator discontinuance. The text begins with an introduction to critical respiratory care followed by a review of respiratory failure to include assessment of oxygenation, ventilation and acid-base status. A chapter is provided which reviews principles of mechanical ventilation and commonly used ventilators and related equipment. Indications for mechanical ventilation are next discussed to include invasive and non-invasive ventilation. Ventilator commitment is then described to include establishment of the airway, choice of ventilator, mode of ventilation, and initial ventilator settings. Patient stabilization is then discu
