Pick any object and examine it closely for a few minutes. Then, spend about 10 minutes writing down every observation you can think of. Doing this kind of exercise will not only help you become more observant, but will also get you into the habit of clearly expressing—and thinking about—the things you observe.

10th Edition helps instructors teach critical thinking skills within the rich context of psychology. It is the leading text of its kind. How to Think Straight About Psychology says about the discipline of psychology what many instructors would like to say but haven't found a way to. That is one reason adopters have called it "an instructor's dream text" and often comment "I wish I had written it."
