measured: bits per second (bps), kilobits per second (kbps), megabits per second (mbps), gigabits per second (gbps). 5.1.5 Understand the concepts of downloading from, uploading to a network. 5.2 Network Access 5.2.1 Identify the different options for connecting to the Internet like: phone line, mobile phone, cable, wi-fi, wi-max, satellite.

Revised for the new specification, this textbook covers all the modules of this qualification. Skills practice helps consolidate learning. Practice material at the end of each module helps prepare students for assessment. A CD-ROM contains answers and recalled text to save time and effort.

Learn the basic operations associated with searching and navigating web sites to access information, how to create and send e-mail messages and how to manage personal distribution lists and message folders. The manual comes with its own data files which you can use for practising the relevant exercises. Approved by the ECDL Foundation.

Here's the book you need to prepare for the seven modules required for the European/International Computer Driving License qualification. Produced in conjunction with the British Computer Society, and approved by the ECDL Foundation, this volume provides: * Comprehensive coverage of all objectives for the ECDL/ICDL Syllabus Version 4.0 * Practical instruction on computer, application, and Internet fundamentals * Detailed hands-on exercises using Office XP * Real-world insights and advice from experienced IT professionals Key topics include: Fundamental Concepts of IT; Identifying computer hardware and software components; understanding networking basics, health and safety issues, security, and copyright law Using the Computer and Managing Files: Managing files and the desktop, handling viruses, and printing Word Processing: Managing documents, inserting and editing data, formatting text, creating tables, using mail merge, and preparing data for output Spreadsheets

New edition of this bestselling, ICS-approved textbook covering all seven modules of the ECDL 5 syllabus. Uses a combination of Microsoft Office 2010 suite of applications with Internet Explorer 8 and Windows Live Mail on the Microsoft Windows 7 operating system platform. Book and work files are also suitable for users of Microsoft Office 2007 suite of applications. Taking a comprehensive yet practical approach, images and screen grabs are used to explain concepts in a step-by-step manner. Clearly defined goals, support exercises and retention exercises are provided throughout the text. WRITTEN FOR: Students taking ECDL 5 modules

Brilliant ECDL is the complete fully-accredited guide to passing the ECDL 4.0 examination for self-learners. With close to a million people in the UK alone studying the ECDL syllabus, the benefits of this easy-to-use guide are endless. The ECDL (European Computer Driving Licence) is an internationally-recognised, objective, standardised, and certificate of end-user computing skills. To qualify for the licence, candidates have to pass seven tests of PC knowledge and skill in the common business applications (wordprocessing, database, spreadsheets, presentations and the Internet). With ECDL registrations in the UK increasing monthly, the qualification is becoming more widely recognised as a desirable and mandatory certification of basic entry-level computing, IT skills and knowledge. With this rise in validation, more and more individuals are becoming aware of the need to gain the qualification for themselves, rather than as part of a company training plan or initiative. Traditional training guides can be unwieldy and make it hard to get the information you need right away. Brilliant ECDL allows you to find the information you need easily and with minimal fuss, guiding you through each task using a visual step-by-step approach. Fully-updated to cover all 7 modules of the ECDL 4.0 Syllabus using the most popular business software, Microsoft Windows XP, Microsoft Office XP, and Internet Explorer 6, Brilliant ECDL is the perfect solution to all ECDL students' needs.
