Why should feminists care about Christianity? Why should Christians care about feminism? Situated firmly in the third wave of feminist activism and scholarship as well as in contemporary Christian theology, Riswold addresses issues such as race, class, gender, and sexuality with an affirmation of tradition alongside a push for change. The purpose of this book is simple: to introduce college and seminary students to the basic questions and issues in a feminist interpretation of Christianity. It explores the central ideas of Christian feminism, including its critique of patriarchy in Christianity, its recovery of the presence, actions, and ideas of women, and its construction of theology from a feminist perspective. What has been troublesome in Christianity for feminists and why? How have Christian feminists dealt with those issues? What resources are there in Christianity for the empowerment and encouragement of women?

The first work to undertake a theological critique of Christian feminism as a whole, this book seeks to bring traditional faith and the feminist position into a deeper dialogue. Part One presents an overview of the historical issues raised by feminist theology. Part Two compares key feminist theological presuppositions to the prophetic interpretation of reality found in the biblical tradition.

What does the Bible really teach about the roles of men and women? Bible scholar Wayne Grudem carefully draws on 27 years of biblical research as he responds to 118 arguments often levied against traditional gender roles. Grudem counters egalitarian and feminist critiques with clarity, compassion, and precision, showing God's equal value for men and women while celebrating the beauty in their differences.

With contributions from some of the most prominent voices writing on gender, law and religion today, this book illuminates some of the conflicts at the intersection of feminism, theology and law. It examines a range of themes from the viewpoint of identifiable traditions such as Judaism, Christianity, Islam and Buddhism, from a theoretical and practical perspective. Among the themes discussed are the cross-over between religious and secular values and assumptions in the search for a just jurisprudence for women, the application of theological insights from religious traditions to legal issues at the core of feminist work, feminist legal readings of scriptural texts on women's rights and the place that religious law has assigned to women in ecclesiastic life. Feminists of faith face challenges from many sides: patriarchal remnants in their own tradition, dismissal of their faith commitments by secular feminists and balancing the conflicting loyalties of their lives. The book will be essential reading for legal and religious academics and students working in the area of gender and law or law and religion.

**A Guide to Navigate Evangelical Feminism** In a society where gender roles are a hot-button topic, the church is not immune to the controversy. In fact, the church has wrestled with varying degrees of evangelical feminism for decades. As evangelical feminism has crept into the church, time-trusted resources like *Recovering Biblical Manhood and Womanhood* help remind Christians of what the Bible has to say. In this edition of the award-winning best seller, more than 20 influential men and women such as John Piper, Wayne Grudem, D. A. Carson, and Elisabeth Elliot offer thought-provoking essays responding to the challenge egalitarianism poses to life in the church and in the home. Covering topics like role distinctions in the church, how biblical manhood and womanhood should work out in practice, and women in the history of the church, this helpful resource will help readers learn to orient their beliefs with God's unchanging word in an ever-changing culture.

**A New Gospel for Women** tells the story of Katharine Bushnell (1855-1946), author of *God's Word to Women*, one of the most innovative and comprehensive feminist theologies ever written. An internationally-known social reformer and women's rights activist, Bushnell rose to prominence through her highly publicized campaigns against prostitution and the trafficking of women in America, in colonial India, and throughout East Asia. In each of these cases, the intrepid reformer struggled to come to terms with the fact that it was Christian men who were guilty of committing acts of appalling cruelty against women. Ultimately, Bushnell concluded that Christianity itself - or rather, the patriarchal distortion of true Christianity - must be to blame. A work of history, biography, and historical theology, Kristin Kobes DuMez's book provides a vivid account of Bushnell's life. It maps a concise introduction to her fascinating theology, revealing, for example, Bushnell's belief that gender bias tainted both the King James and the Revised Versions of the English Bible. As Du Mez demonstrates, Bushnell insisted that God created women to be strong and independent, that Adam, not Eve, bore responsibility for the Fall, and that it was through Christ, "the great emancipator of women," that women would achieve spiritual and social redemption. *A New Gospel for Women* restores Bushnell to her rightful place in history. It illuminates the dynamic and often thorny relationship between faith and feminism in modern America by mapping Bushnell's story and her subsequent disappearance from the historical record. Most pointedly, the book reveals the challenges confronting Christian feminists today who wish to construct a sexual ethic that is both Christian and feminist, one rooted not in the Victorian era, but rather one suited to the modern world.

Feminist theory and reflections on sexuality and gender rarely make contact with contemporary continental philosophy of religion. Where they all come together, creative and transformative thinking occurs. In *Feminism, Sexuality, and the Return of Religion*, internationally recognized scholars tackle complicated questions provoked by the often stormy intersection of these powerful forces. The essays in this book break down barriers as they extend the richness of each philosophical tradition. They discuss topics such as queer sexuality and religion, feminism and the gift, feminism and religious reform, and religion and diversity. The contributors are Hélène Cixous, Sarah Coakley, Kelly Brown Douglas, Mark D. Jordan, Catherine Keller, Saba Mahmood, and Gianni Vattimo.

"At its heart," Frederick Buechner once wrote, "most theology, like most fiction, is essentially autobiography." That is true of this book in a very explicit way. Rita Gross and Rosemary Radford Ruether have long been known for their feminist contributions to Buddhism and Christianity, respectively. In this book, they talk candidly about what their respective traditions mean to them in both their liberating as well as problematic aspects. Throughout the book, their lifestories provide the rich soil, perhaps even the rationale, for their theological and spiritual development. Born in a nonvirtual log cabin to a struggling Christian fundamentalist farm family, Rita was excommunicated by her church at an early age. She eventually made a long journey to Buddhism after a detour through Judaism. Rosemary was born in comfortable circumstance and raised an "enlightened" Roman Catholic in a family that had Jewish and Protestant connections. She would always rather fight (for enlightened Catholicism) than switch. Despite the marked differences in their life histories and their respective religious faiths, Rita and Rosemary achieve surprising unanimity on the paramount issue: what engaged Buddhism and what enlightened Christianity can offer in the struggle to create a new future for planet earth.
