This book, I have written, has helped to release all the tension I had with the obstacles I met along with the raising of this family. With the farm life and the large family, including a son with birth defects and Down's syndrome, life was strenuous. Years of struggling to keep the family well and happy. With the help of good doctors and surgeons, in Bobby's case, we have seen that it can be done. I was always trusting God in each incidence. It is my hope that this book will prove to be an inspiration to any and all who have the privilege of reading it.

Make yourself at home on the road Live down by the beach one week and way up in the mountains the next? It sounds like an impossible dream, but motor-homers do it all the time. Whatever draws you to the mobile life—adventurous domestic vacations or permanently itchy feet—RVs & Campers For Dummies helps you feel right at home. The book explores the key aspects of glamping-with-wheels. Discover how it's possible to bring beauty spots right to your doorstep without sacrificing domestic comforts like a comfy bed, private bathroom, and wholesome, healthy home cooking! In a down-home, friendly style, mobile-living veterans and husband-and-wife team Christopher Hodapp and Alice Von Kannon welcome you inside to discover everything from deciding to rent or buy the vehicle that best suits your needs to planning and prepping your first journey and then setting yourself up wherever you arrive at the perfect spot. Along the way you'll learn how to adapt your driving skills to pilot your home on the road, as well as how to keep every aspect of it shipshape and ready for action. Explore your RV and camper options Stock up with the right supplies Get a snapshot of the mobile home lifestyle Troubleshoot common problems Getting there is half the fun—and this guide shows you how to do it safely and in style. So, buckle up (or relax in the back) ... it's going to be a wild but incredibly comfortable ride!

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Both new and experienced RV owners will find this system-by-system guide indispensable-- Expanded to include up-to-date improvements in technology, accessories, appliances, and systems, and chapters on buying new or used RVs

Have you ever thought someone was watching you . . . but there was no one there? One summer's evening, Alice sees something out of the corner of her eye. She turns to look: just a trick of the light. She is no longer the lonely little girl she once was, with her games of make-believe and imaginary friend, Sam. Then Alice's world is shattered in a tragic accident, and Sam creeps out of the shadows and back into her life. At first Alice is comforted by his presence: a best friend to help fill the void in her heart. Perhaps even help her find someone real to share her life with. But Alice and Sam know he can only exist if she wants him there. So when Alice decides it's time for him to leave, who will get hurt in order for him to stay alive? A compelling novel that fans of page-turners such as Clare Mackintosh's I LET YOU GO and S. K. Tremayne's THE ICE TWINS will be gripped by.
