Services (CPS), Department of Family Services (DFS), and the foster system have failed the very children they are mandated to protect and hold safe. Solander shares heartbreaking incidents taken from the daily news as well as her own firsthand experiences as a foster parent. Only through public awareness is there any chance that the children in the system have any hope of being protected the way they should be. Every child has the right to a safe and secure home, but foster children sometimes find that being in the system brings them to a worse place than the home from which they were taken. Only through public involvement pressuring lawmakers to correct the shortcomings in the system will the innocent victims, the children, have the chance the system promises them. Foster Care explains what is happening with these children and what we can do to help correct this dire

Engaging learning tools are integrated throughout: Focus on Research boxes provide an in-depth look at research or methodologies. Case Examples and Debates encourage discussion about the gray areas in the field. Legal Examples and Focus on Law sections explain judicial rulings including guides for locating relevant state statutes. Discussion questions promote dialogue and deepen understanding of the material.
