Identifying 'permissive populism', the trickle down of permissiveness into mass consumption, as a key feature of the 1970s, Leon Hunt considers the values of an ostensibly 'bad' decade and analyses the implications of the 1970s for issues of taste and cultural capital. Hunt explores how the British cultural landscape of the 1970s coincided with moral panics, the troubled Heath government, the three day week and the fragmentation of British society by

nationalism, class conflict, race, gender and sexuality.

Cooper, Robertson & Partners was founded on the premise that it could best serve its clients and, at the same time, meet its own professional goals by pursuing excellence in the two closely related fields of architecture and urban design. The underlying and unifying theme of the firm's work is the belief that architecture, planning, landscape, and urban design are interconnected disciplines that must be taken together if lasting quality and value are to be achieved. An impressive selection of the firm's urban design work is presented here and includes everything from designing entire towns, new communities, and campuses from scratch to re-imagining existing cities, waterfronts, campuses, and public open spaces.

Their dreams are within reach. But first they'll have to put the past away. A New York Times and USA Today Bestseller! Owen Lawry is days away from leaving Gansett Island to attend the trial of his father, who is charged with assaulting his mother almost a year ago. He has spent his entire adult life trying to outrun his violent past, but the upcoming showdown with the father he hasn't seen in more than a decade has him spending far more time in the past than in the present. His biggest challenge is convincing his pregnant fiancée, Laura McCarthy, to sit out the trip. The last thing he wants is to expose the woman he loves to the pain of his past. Laura is determined to stand by Owen's side throughout the trial and into the life they have planned together. The trial and her final divorce papers are the only things standing between them and the wedding they have looked forward to all year. Can she convince Owen to let her in and allow her to help him through this difficult time? And what will become of the man she loves if his father walks free? As Owen and Laura prepare for the emotional battle with his father, his mother, Sarah, finally comes clean about her violent marriage with Charlie Grandchamp, the man who has been her friend and companion for months now. How will Charlie react to hearing Sarah's secrets, and will their relationship move forward now that he finally knows the truth about why she can't bear to let him touch her?
