Mai come nell'ultimo periodo si è avvertita la necessità di una casa multitasking. Dove prima si mangiava e basta, oggi si studia e si lavora. Dove ci si rilassava davanti alla tv si fanno video call e si risponde alle e-mail. Dove un tempo si dormiva, oggi si guardano le serie preferite, si chatta con gli amici e, spesso, si continua a ...

Since unification in 1860, Italy has remained bitterly divided between the rich North and the underdeveloped South. This book examines the historical, literary, and cultural contexts that have informed and inflamed the debate on the Southern Question for over a century. It brings together analysis of cinema, literature, and newspaper archives to reconsider the myths and stereotypes that both Northerners and Southerners deploy in their narratives. Salvatore DiMaria offers a masterful assessment of the entangled issues that have produced the South's image as impoverished and backwards, such as organized crime, illiteracy, and mass emigration. Documenting the state's largely failed efforts to bring the South into its socio-economic fold, DiMaria also points to the future, arguing that the European Union and globalization are transformative forces that may finally produce a unified Italy.

n The Lion's Mouth, an Italian-Canadian woman, Bianca, tells the story of her beloved cousin, Marco, whose life is disintegrating along with his city - Venice. Marco is her dark twin, her Italian self. As she tries to make sense of her cousin's breakdown, she describes her story and reflects on her immigrant and Canadian experiences, coming to terms with her dual cultures. The novel is multifaceted - a thriller, a study of social mores in Italy and Canada, a portrait of Venice, a self-reflexive account - and yet the whole is seamless, powerful, and elegant.

This exciting adventure story follows a family of slaves in the USA in 1860 as they escape from a cotton plantation via the legendary Underground Railroad. An enthralling story of courage and

resilience, centring on 10-year-old Tommy, it will fascinate children who might not know much about this secret escape route into Canada that was used by as many as 100,000 people. Ten-year-old Tommy roams the cotton fields of Alabama owned by the notorious Captain Archer. Intimidating guards with fierce dogs protect the land to prevent any slaves from leaving. That is until a supernatural spirit visits Tommy offering a way out. With his banjo slung over his shoulder, Peg Leg Joe guides Tommy, his family and other slaves out of Southern USA, and into Canada through the legendary Underground Railroads. Stretched for miles across the country's vastness, the network famously facilitated more than 100,000 slaves to a new life. For Tommy and his family, the escape is far from an easy ride. The young boy is forced to mature through this testing period and allow his strong will to guide himself and others to

safety under the guidance of Peg Leg Joe. Set in the 19th century, D'Adamo's well-constructed novel tells a story distant in time, remains grounded in a reality that still exists today. Millions of people across the globe continue to be enslaved, including children.

Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's *Mimesis*. Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in

history, at the end of eighteenth-century industrialization, when the functional becomes the dominant value of Western culture.

Roaming through every genre and much of the history of Western literature, the author identifies distinct categories into which obsolete images can be classified and provides myriad examples.

The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.

In their introduction to this collection of essays, the editors argue that constraints can be seen as a source of literary creativity, and given that translation is even more constrained than 'original' literary production, it thus has the potential to be even more creative too. The ten essays that follow outline ways in which translators and translations are constrained by poetic form, personal histories, state

control, public morality, and the non-availability of comparable target language subcodes, and how translator creativity may-or may not-overcome these constraints. Topics covered are: Baudelaire's translation practices; bowdlerism in translations of Voltaire, Boccaccio and Shakespeare, among others; Leyris's translations of Gerard Manley Hopkins; ideology in English-Arabic translation; the translation of censored Greek poet Rhea Galanaki; theatre translation; Nabokov and translation; gay translation; Moratín's translation of Hamlet; and state control of translation production in Nazi Germany. The essays are mostly highly readable, and often entertaining.

An epistolary tale told through a series of seventeen letters by men describes their affairs and desperate entreaties for replies that may never come, in a work that culminates in a single, eighteenth letter by a distant, implacable woman who sympathetically answers their pleas. Original.

In *Monsters of the Sea*, Richard Ellis casts his net wide in search of the most unusual aquatic creatures, from mermaids to manatees to the Loch Ness Monster and the mythical sea serpent for whom the giant squid has frequently been mistaken. This work focuses on translators and readers as participants in the communicative process, where the use of allusions is one type of problem to be solved. Reader-response tests and interviews with professional translators highlight the difficulty in conveying the function and meaning of allusive passages to readers in another culture. The many examples discussed also provide materials for translation teachers wanting to address the translation of allusions in their courses.
