"An exploration of the Grand Canyon on a grand scale, as only Jason Chin can illustrate and explain."--

Presents an introduction to the Grand Canyon, including how it formed, its end-to-end exploration in the late 1860s, the early native people who lived there, and its varied wildlife.

I Am the Grand Canyon is the story of the Havasupai people. From their origins among the first group of Indians to arrive in North America some 20,000 years ago to their epic struggle to regain traditional lands taken from them in the nineteenth century, the Havasupai have a long and colorful history. The story of this tiny tribe once confined to a too-small reservation depicts a people with deep cultural ties to the land, both on their former reservation below the rim of the Grand Canyon and on the surrounding plateaus. In the spring of 1971, the federal government proposed incorporating still more Havasupai land into Grand Canyon National Park. At hearings that spring, Havasupai Tribal Chairman Lee Marshall rose to speak. "I heard all you people talking about the Grand Canyon," he said. "Well, you're looking at it. I am the Grand Canyon!" Marshall made it clear that Havasu Canyon and the surrounding plateau were critical to the survival of his people; his speech laid the foundation for the return of thousands of acres of Havasupai land in 1975. I Am the Grand Canyon is the story of a heroic people who refused to back down when facing overwhelming odds. They won, and today the Havasupai way of life quietly continues in the Grand Canyon and on the surrounding plateaus.

This is a once-in-a-lifetime experience--an end-to-end, rim-to-river exploration of the Grand Canyon. The authors have debuted a film--Into the Canyon--in February of 2019 that explores their hike through the canyon. Award-winning photographer Pete McBride, along with best-selling authors Kevin Fedarko and Hampton Sides, takes us on a gripping adventure story told through stunning, never-before-seen photography and powerful essays. By hiking the entire 750 miles of Grand Canyon National Park--from the Colorado River to the canyon rim--McBride captures the majesty of as well as calling us to protect America's open-aired cathedral. The 2019 Public Lands Alliance Partnership Book of the Year, this is the most spectacular collection of Grand Canyon imagery ever seen, showing beauty from vantages where no other photographers have ever stood. It will also highlight the conservation challenges this iconic national park faces as visitation numbers grow and development pressures surrounding it mount. This photography will inspire and remind us why we protect such a cherished public space. Proceeds benefit the Grand Canyon Conservancy, and the accompanying documentary Into the Canyon has been shown at the Flagstaff Mountain Film Festival and the Aspen Film Festival in February of 2019 as well as debuting on the National Geographic Channel--all in time for the national park's centennial.

"A convincing case for Powell's legacy as a pioneering conservationist." --The Wall Street Journal "A bold study of an eco-visionary at a watershed moment in US history."--Nature A timely, thrilling account of the explorer who dared to lead the first successful expedition down the Colorado through the Grand Canyon—and waged a bitterly-contested campaign for sustainability in the West. John Wesley Powell's first descent of the Colorado River through the Grand Canyon in 1869 counts among the most dramatic chapters in American exploration history. When the Canyon spit out the surviving members of the expedition—starving, battered, and nearly naked—they had accomplished what others thought impossible and finished the exploration of continental America that Lewis and Clark had begun almost 70 years before. With *The Promise of the Grand Canyon*, John F. Ross tells how that perilous expedition launched the one-armed Civil War hero on the path to becoming the nation's foremost proponent of environmental sustainability and a powerful, if controversial, visionary for the development of the American West. So much of what he preached—most broadly about land and water stewardship—remains prophetically to the point today.

A portrait of the Havasupai Indians, who live in a part of the Grand Canyon in which blue green water flows over huge waterfalls.
