This guide for buying Car Audio (and it is only a guide) is intended to answer some of the standard questions we all tend to asked. More often than not the question starts as "Hi! I'm new and I'd like to put a stereo in my car!" "What should i look for?" "How to wire them up?" So by now you've got the basics.

**A Complete guide for buying Car Audio - Part II**

Pump Up Your Sound System with Car Audio: Pump Up Your Sound System with Car Audio. Maximize the sound potential of your car with new car speakers, a car subwoofer, and a car amplifier. First measure the areas of your car where you want to place your speakers.

**Car Audio and Car Video Buying Guides - eBay**

To understand these functions, it's helpful to think of a car stereo as having three different sections: Source — This is the part that let's us choose what we want to hear. Sources may include a standard AM/FM tuner, CD or DVD player, satellite radio, iPod® or smartphone, or a USB input. Preamp — This is where all sound adjustments are made.

**Car Stereo Buying Guide: Tips for Choosing a New Stereo -**

New speakers can put the life back into your music. Crutchfield carries car speakers of nearly every size, shape, and type, but with so many choices available, it can be hard to know what to look for. But if you keep a few important points in mind, you'll be able to pick out the perfect speakers for your vehicle. Match your speakers to your system

**Car Speakers Buying Guide: What to Look for in Full range -**

If you're a total newbie to the world of car audio systems, then there's just one key fact that you should be aware of. It isn't some byzantine formula that's used to calculate speaker power levels or optimal speaker placements. It doesn't have anything to do with squeezing every last bit out of a car audio capacitor or adding an additional battery.

**Beginner's Guide to Car Audio Systems - Lifewire**

If you're satisfied with the above then the next stage of our first car buying guide is to take the car for a test drive. If the owner or dealer doesn't want you to, then walk away. Otherwise hop in and take it for a drive. Be sure the engine is cold before you begin, because an engine that has been warmed could be hiding problems.

**A Complete Guide To Buying Your First Car - Direct Line**

In general, stiffer and more lightweight materials are preferred for car audio speakers. Polypropylene, woven fabrics, aluminum and titanium are common speaker materials. Rubber produces excellent sound and lasts a long time—but tends to be more expensive. Purchasing Power sells car speakers in the car audio section. Back to top. Subwoofer
