The most focused, up-to-date, easy-to-understand guide to high-acuity nursing in all care settings. High-Acuity Nursing, Sixth Edition brings together the knowledge needed to care for adult patients with complex conditions and unpredictable outcomes, across settings ranging from critical care to high-skill long-term facilities. It makes critical pathophysiological concepts clinically applicable to high-acuity patients; enhances students' clinical decision-making skills; provides extensive and immediate feedback; and supports self-paced learning. This tightly focused guide has been substantially reorganized to reflect faculty and student feedback. This edition adds bulleted chapter summaries; NCLEX-style posttest items; updated Emerging Evidence boxes; coverage of oncological emergencies, hypertensive crises, and acute aortic problems; adult doses in Related Pharmacotherapy boxes; and a brand-new chapter on complications associated with metabolic stress response. Teaching and Learning Experience This book is designed to help learners rapidly gain mastery and confidence. It provides: Focused coverage of topics specifically related to high-acuity nursing: Helps learners gain command of crucial content without ever feeling overwhelmed by its volume and complexity Links pathophysiological principles and clinical care: Helps learners translate pathophysiological principles into care decisions, and understand the rationale for those decisions Learner-focused “active learning” with strong pedagogical support: “Chunks” complex information into small, discrete sections, provides quizzes after each section to ensure mastery, and offers extensive pedagogical support for more effective study

Revision of: High acuity nursing / Pamela Stinson Kidd, Kathleen Dorman Wagner.

Covers essential critical care concepts, technology, and procedures. This title addresses the advances in high-acuity care and emphasizes patient safety and optimum patient outcomes.

New edition which contains everything required by critical care nurses for practice and certification. Includes all the content on the CCRN examination blueprint. Also useful as a clinical reference providing quick access to essential information needed for care of critically ill clients.

From the experts at the American Association of Critical-Care Nurses (AACN) comes the definitive resource for critical care certification and clinical practice. This new seventh edition has been thoroughly updated to reflect the current state of high acuity, progressive, and critical care nursing practice and includes expanded coverage of pain management, palliative care, and end-of-life care; transplantation; and key AACN initiatives. It also reflects the most current literature, national and international guidelines, clinical studies, and of course, the newest content on the CCRN® exam. Authored by the experts at the American Association of Critical-Care Nurses (AACN), this is the definitive guide to critical care nursing certification and clinical practice. NEW! Significantly updated content corresponds to the most recent CCRN® examination blueprint and reflects the most current literature, national and international guidelines, clinical studies, AACN/ANA scope of practice, and ECCO 3.0. NEW! Expanded coverage of key content reflects the healthcare needs of today's patients, including pain management, palliative care, and end-of-life care; nutritional support; transplantation; and key AACN initiatives. Concise outline format is organized by body system to make information easy to digest. NEW! Clinical Pearls and Key Concepts boxes highlight key content and serve as a convenient quick reference. NEW! Improved navigation includes printed index tabs to help distinguish chapters and find information fast. Basic to advanced levels of coverage, with an emphasis on clinical nursing practice, prepare you for the full range of knowledge you will encounter on the CCRN exam and in practice. Coverage of the AACN Synergy Model is featured in the new opening chapter. Professional Care and Ethical Practice is integrated into the Core Curriculum series framework. A new chapter on Critical Care Patients with Special Needs includes bariatric and geriatric patients in critical care, as well as high-risk obstetric patients. Features new content on chest tubes, liver transplantation for acute liver failure, spirituality, and spiritual aspects of care. Integrates pain as the 5th vital sign and includes JCAHO, HCFA, and AHCPR guidelines relating to pain management. Features AHRQ evidence-based practice guidelines as reference sources for practice interventions. New organization for Patient Care presents patient problems, needs, etc. in order of clinical priority. Expanded Nursing Interventions includes considerations related to patient/family education, patient transfer, and discharge planning. Web-based resources for CDC, AHA, NINR, National Guideline Clearinghouse, NIH Consensus Conference Proceedings, ADA.

Preceded by: AACN procedure manual for critical care / edited by Debra Lynn-McHale Wiegand. 6th ed. c2011.

The most focused, up-to-date, easy-to-understand guide to high-acuity nursing in all care settings. High-Acuity Nursing, Sixth Edition brings together the knowledge needed to care for adult patients with complex conditions and unpredictable outcomes, across settings ranging from critical care to high-skill long-term facilities. It makes critical pathophysiological concepts clinically applicable to high-acuity patients; enhances students' clinical decision-making skills; provides extensive and immediate feedback; and supports self-paced learning. This tightly focused guide has been substantially reorganized to reflect faculty and student feedback. This edition adds bulleted chapter summaries; NCLEX-style posttest items; updated Emerging Evidence boxes; coverage of oncological emergencies, hypertensive crises, and acute aortic problems; adult doses in Related Pharmacotherapy boxes; and a brand-new chapter on complications associated with metabolic stress response. Teaching and Learning Experience This book is designed to help learners rapidly gain mastery and confidence.It provides: *Focused coverage of topics specifically related to high-acuity nursing: Helps learners gain command of crucial content without ever feeling overwhelmed by its volume and complexity *links pathophysiological principles and clinical care: Helps learners translate pathophysiological principles into care decisions, and understand the rationale for those decisions *Learner-focused active learning with strong pedagogical support: Chunks complex information into small, discrete sections, provides quizzes after each section to ensure mastery, and offers extensive pedagogical support for more effective study

Focusing on critical care nursing, this full-color text provides an examination of the important aspects of critical care nursing. It is organized in ten units around alterations in body systems.

This publication addresses all the topics crucial to students or newly qualified critical care nurses. Designed for 9-13 week critical care classes, this new edition prepares readers to integrate the technology of critical care with psychosocial concerns in order to provide high-quality nursing care.
