Citing a web page is very similar to citing a website except the title of the page is added in italics: Author surname(s), initial(s). (Year of publishing). Title of page [Online]. Title of site. Available at: URL (Accessed: day month year) Web Page Example. Thomson, M. (2017). APA citation [Online]. How and when to reference.

How to Cite a Website - APA, MLA & Harvard - Mendeley
Traditionally, in-text citations included the author's last name and the page number. Obviously, this will not work for most online sources. For these, you should list the author's name or whatever is at the beginning of the full citation. You may need to add other information to make the in-text citation clear.

How to Cite Online Sources - Details With APA and MLA
In-text citations are citations within the main body of the text and refer to a direct quote or paraphrase. They correspond to a reference in the main reference list. These citations include the surname of the author and date of publication only. Using an example author James Mitchell, this takes the form:

How to Cite Sources in APA Citation Format - Mendeley
Use author-date parenthetical citations in APA. To cite paraphrased material in the text of your paper, put the author's last name in parentheses at the end of the sentence where the paraphrase appears. Place a comma after the author's name, then type the year the source was published.
