

Ieee Standard C Atlas Test Language

Getting the books Ieee standard c atlas test language now is not type of inspiring means. You could not on your own going subsequent to books collection or library or borrowing from your friends to edit them. This is an enormously easy means to specifically acquire guide by on-line. This online revelation Ieee standard c atlas test language can be one of the options to accompany you in the manner of having additional time.

It will not waste your time. take on me, the e-book will certainly way of being you further business to read. Just invest little get older to admittance this on-line statement Ieee standard c atlas test language as without difficulty as evaluation them wherever you are now.

~~Ieee Standard C Atlas Test Standard Details. The intent of this document, ANSI/IEEE Std 716-1985, IEEE Standard Common ATLAS (CIATLAS), is to define a high order language which is a subset of Level 18 of IEEE Std 416, Abbreviated Test Language for All Systems (ATLAS). The language described in this document is to be used for the writing of test programs for Units Under Test (UUTs), so that these programs can operate on various makes and models of Automatic Test Equipment (ATE).~~

~~IEEE 716-1985—IEEE Standard C/ATLAS Test Language~~

~~C/ATLAS is designed to describe tests in terms that are independent of any specific test system. It has been constrained to ensure that it can be implemented on automatic test equipment. IEEE 716-1989 - IEEE Standard C/ATLAS Test Language~~

~~IEEE 716-1989—IEEE Standard C/ATLAS Test Language~~

~~C/ATLAS is a programming/programmable language which is a subset of IEEE Standard ATLAS Test Language with a specific and unique purpose. It has been developed to serve as the minimum ATLAS program requirements for use with specific equipment and systems. This single volume describes the language to be used for the writing of test programs for units under test (UUTs), so that these programs can operate on various makes and models of automatic test equipment (ATE).~~

~~716-1989—IEEE Standard C/ATLAS Test Language~~

~~C/ATLAS defines an operational standard, which is based on the language defined by ANSI/IEEE Std 416-1984, Standard ATLAS Test Language. Abbreviated Test Language for All Systems (ATLAS) is a test-oriented language for expressing test specifications and test procedures.~~

~~716-1989—IEEE Standard C/ATLAS Test Language~~

~~IEEE Std 716-1989 defines IEEE Common ATLAS (C/ATLAS), a high-order language for testing on Automatic Test Equipment (ATE). C/ATLAS is a widely acceptable programming language. Its single and unique construct expresses each language facility selected, to support structured programming equipment. The C/ATLAS language is designed to describe tests for implementation on ATE in terms that are independent of any specific test systems. C/ATLAS defines an operational standard, which is based on the ...~~

Standard Details. This standard defines ATLAS, the Abbreviated Test Language for All Systems, which offers a standardized test language for expressing test specifications and test procedures. It is a test-oriented language independent of test equipment, and provides a standard abbreviated English language used in the preparation and documentation of test procedures that can be implemented either manually or with automatic and semi-automatic equipment.
