The 2 nd edition of the SAGE Handbook of Research in International Education is a welcomed and timely contribution to the field. Additional chapters in intercultural competence, organizational development and peace education as well as other significant revisions to the text continue to expand our views of the field and the lens that we use to define, describe and capture international education.

Providing a distillation of knowledge in the various disciplines of arts education (dance, drama, music, literature and poetry and visual arts), the Handbook synthesizes existing research literature, helps define the past, and contributes to shaping the substantive and methodological future of the respective and integrated disciplines of arts education. While research can at times seem distant from practice, the Handbook aims to maintain connection with the lived practice of art and of ...
