~~9780030062285: Introductory Astronomy and Astrophysics ...~~
This is not a MEATY text. It is a good INTRODUCTORY text
that provides a decent overview of general astronomy,
including: basic celestial mechanics, the solar system,
absorption/emission, stars, H-R diagram, galaxies, interstellar
medium, evolution, Hubble's law, active galaxies, cosmology.
The level of detail seems appropriate for a survey course.
