Routledge, Jan 1, 2005 - Literary Criticism - 155 pages 3 Reviews Jacques Lacan is one of the most challenging and controversial of contemporary thinkers, as well as the most influential psychoanalyst since Freud.

Jacques Lacan is one of the most challenging and controversial of contemporary thinkers, as well as the most influential psychoanalyst since Freud. Lacanian theory has reached far beyond the consulting room to engage with such diverse disciplines as literature, film, gender and social theory. This book covers the full extent of Lacan's career and provides an accessible guide to Lacanian concepts and his writing on: *the imaginary and the symbolic *the Oedipus Complex and the meaning of the phallus *the subject and the unconscious *the real *sexual difference. Locating Lacan's work in the context of contemporary French thought and the history of psychoanalysis, Sean Homer's Jacques Lacan is the ideal introduction to this influential theorist.

There are few figures more important in literary and critical theory than Jacques Derrida. Whether lauded or condemned, his writing has had far-reaching ramifications, and his work on deconstruction cannot be ignored. This volume introduces students of literature and cultural studies to Derrida's enormously influential texts, covering such topics as: deconstruction, text and difference; literature and freedom; law, justice and the 'democracy to come'; drugs, secrets and gifts. Nicholas Royle's unique book, written in an innovative and original style, is an outstanding introduction to the methods and significance of Jacques Derrida.

Slavoj Zizek is no ordinary philosopher. Approaching critical theory and psychoanalysis in a recklessly entertaining fashion, Zizek's critical eye alights upon a bewildering and exhilarating range of subjects, from the political apathy of contemporary life, to a joke about the man who thinks he's a chicken, from the ethereal heroism of Keanu Reeves in *Speed*, to what toilet designs reveal about the national psyche. Tony Myers provides a clear and engaging guide to Zizek's key ideas, explaining the main influences on Zizek's thought (most crucially his engagement with Lacanian psychoanalysis) using examples drawn from popular culture and everyday life. Myers outlines the key issues that Zizek's work has tackled, including: What is a Subject and why is it so important? The Imaginary, the Symbolic and the Real What is so terrible about Postmodernity? How can we distinguish reality from ideology? What is

the relationship between men and women? Why is Racism always a fantasy? Slavoj Žižek is essential reading for anyone wanting to understand the thought of the critic whom Terry Eagleton has described as "the most formidably brilliant exponent of psychoanalysis, indeed of cultural theory in general, to have emerged in Europe for some decades.

This book guides readers through Freud's terminology and key ideas, then concludes with a detailed bibliography of his own and other relevant texts. A 'must' for all literature students.

Nietzsche's work has become a crucial point of departure for contemporary critical theory and debate.

James Procter's introduction places Hall's work within its historical contexts, providing a clear guide to his key ideas and influences, as well as to his critics and his intellectual legacy. Stuart Hall has been pivotal to the development of cultural studies during the past forty years. Whether as director of the Centre for Contemporary Cultural Studies, or as one of the leading public intellectuals of the postwar period, he has helped transform our understanding of culture as both a theoretical category and a political practice. Topics include: * popular culture and youth subcultures * the CCCS and cultural studies * media and communication * racism and resistance * postmodernism and the postcolonial * Thatcherism * identity, ethnicity, diaspora Stuart Hall is the ideal gateway to the work of a critic described by Terry Eagleton as 'a walking chronicle of everything from the New Left to New Times, Leavis to Lyotard, Aldermaston to ethnicity'

Eve Kosofsky Sedgwick was one of the most significant literary theorists of the last forty years and a key figure in contemporary queer theory. In this engaging and inspiring guide, Jason Edwards: introduces and explains key terms such as affects, the first person, homosocialities, and queer taxonomies, performativities and cusps considers Sedgwick's poetry and textile art alongside her theoretical texts encourages a personal as well as an academic response to Sedgwick's work, suggesting how life-changing it can be offers detailed suggestions for further reading Written in an accessible and direct style, Edwards indicates the impact that Sedgwick's work continues to have on writers, readers, and literary and cultural theory today.

An invaluable introduction to the life and work of one of today's most important cultural critics. Studied on most undergraduate literary and cultural studies courses, Fredric Jameson's writing targets subjects from architecture to science fiction, cinema to global capitalism. Of his works, *The Political Unconscious* remains one of the most widely cited Marxist literary-theoretical texts, and 'Postmodernism, or the cultural logic of late capitalism', is amongst the most influential statements on the nature of post-modernity ever published. Adam Roberts offers an engaging introduction to this crucial figure, which will convince any student of contemporary theory that Jameson must be read.

One of the most original thinkers of the twentieth century, Julia Kristeva has been driving forward the fields of literary and cultural studies since the 1960s. This volume is an accessible, introductory guide to the main themes of Kristeva's work, including her ideas on: *semiotics and symbolism *abjection *melancholia *feminism *revolt. McAfee provides clear explanations of the more difficult aspects of Kristeva's theories, helpfully placing her ideas in the relevant theoretical context, be it literary theory, psychoanalysis, linguistics, gender studies or philosophy, and demonstrates the impact of her critical interventions in these areas. Julia Kristeva is the essential guide for readers who are approaching the work of this challenging thinker for the first time, and provides the ideal opportunity for those with more knowledge to re-familiarise themselves with Kristeva's key terms.

The range of Adorno's achievement, and the depth of his insights, is breathtaking and daunting. His work on literary, artistic, and musical forms, his devastating indictment of modern industrial society, and his profound grasp of Western culture from Homer to Hollywood have made him one of the most significant figures in twentieth-century thought. As one of the main philosophers of the Frankfurt School of Critical Theory, Adorno's influence on literary theory, cultural studies, and philosophical aesthetics has been immense. His wide-ranging authorship is significant also to continental philosophy, political theory, art criticism, and musicology. Key ideas discussed in this guide include: art and aesthetics fun and free time nature and reason things, thoughts and being right This Routledge Critical Thinkers guide will equip readers with the tools required to critically interpret Adorno's major works, whilst also introducing readers to his interpretation of classical German philosophy and his relationship to the most significant of his contemporaries.
