Guided by the Australian Curriculum and the Professional Standards for Teaching School Geography (GEOGstandards), Teaching Secondary Geography provides a comprehensive introduction to both the theory and practice of teaching Geography.

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Essential Geography Skills for Middle Secondary is a comprehensive new skills book which is coded to the NSW syllabus. It explains how to interpret data and enables students to work independently through exercises. A variety of geographic skills are integrated through mapping and fieldwork opportunities both in and out of the classroom, and specific fieldwork techniques are addressed. Essential Geography Skills complements the knowledge content of existing texts and will aid preparation for testing in 2002. Students are guided through skills content and exercises following teacher instruction and the text provides additional activities and homework exercises. The needs of lower ability students are met through appropriate questions as well as challenging more able students with extension exercises and activities.

Oxford International Primary Geography is a complete six year primary geography course that provides an engaging introduction to the subject. Using real life examples from around the globe, the course covers key aspects of both human and physical geography, from the basics of mapping to more complex topics such as the pros and cons of ecotourism and how to meet the resource needs of the world's growing population. Additional Workbooks provide students with the opportunity for further study in the classroom or at home, including suggested research topics and cross-curricular projects. For the teacher, the Teacher's Guide provides step-by-step guidance for each lesson, as well as background knowledge and geographical information for specialist and non-specialist teachers alike.

AutoCAD 2015 for Interior Design and Space Planning helps students understand the commands and features of AutoCAD 2015 and demonstrates how to use the program to complete interior design and space planning projects. Covering both two- and three-dimensional drawings, the text provides abundant exercises that walk students step-by-step through the use of AutoCAD prompts and commands. Using numerous illustrations, the text captures the essence of this powerful program and the importance it plays in the interior design, architecture and space planning professions. Features include: - Covers new AutoCAD 2015 interface - Progresses from basic commands to complex drawing exercises. - Provides over 100 exercises and projects. - Highlights seven projects appropriate for interior design, space planning and architecture students. - Includes coverage of the AutoCAD DesignCenter - Covers solid modeling in two chapters

A new edition of geog.3 Student Book, revised and updated to deliver the new Programme of Study for Geography at Key Stage 3 (for teaching from 2014). Contains direct, student-friendly language with illustrated step-by-step explanations.
