A future volume dealing with LASEK, phakic IOLs, Intacs and other refractive procedures would complete the refractive surgery area for interested optometrists. This paperback book is written from the perspective of an optometrist employed by a leading refractive surgery centre in the United Kingdom so the information presented is influenced by her experience in this environment.

Philadelphia: Elsevier Butterworth-Heinemann, 2005. \$61.95. Laser refractive procedures have been approved in the United States by the U.S. Food and Drug Administration since the mid-1990s.

Photorefractive keratectomy (PRK) was approved first then laser-assisted in situ keratomileusis (LASIK). Since then, millions of people have undergone these procedures in the United States alone.
