After five waves of emigration, Lebanon today faces just such a dilemma. The First Wave: 1880-1914 According to Charles Issawi, migration from Lebanon to the New World began to intensify during the second half of the 19th century, when Mount Lebanon was the scene of several regional and international conflicts that led to civil wars, notably between Maronite Christians and the Druze in 1840 and 1860. crisis, which saw US Marines landing on Beirut shores." "This period of Lebanese history is often seen as the product of friction between pan-Arab nationalism and the growing threat to Western hegemony during the Cold War. But while orientation towards the West or the Arab world was a critical feature of these times, Kanaan argues that the 1958 flashpoint was the culmination of a century of unresolved conflict between these three groups." This book studies the origins and evolution of power sharing in Lebanon. The author has established a relationship between mobilization, ethnurgy (ethnic identification), memory and trauma, and how they impact power sharing provisions. The book starts with the events in the 1820s, when communities began to politicize their identities, and which led to the first major outbreak of civil violence between the Druze and the Maronites. Consequently, these troubled four decades in Lebanon led to the introduction of various forms of power-sharing arrangements to establish peace. The political systems introduced in Lebanon are: the Kaim-Makamiya (dual sub-governorship), a quasi-federal arrangement; the Mutassarifiya, the prototype of a power-sharing system; the post-independence political system of Lebanon which the book refers to as semi-consociation, due to the concentration of executive powers in the Presidential office; and finally, the full consociation of the Taif Republic. In each of these phases, there was a peculiar interaction between the non-structural elements that had a direct impact on power sharing; this led at times to instability, and at other times it brought down the system, as in 1840-1860 and 1975. Power Sharing in Lebanon is the first academic work that emphasizes the influence of the non-structural elements that hinder power sharing. This volume is now a key resource for students and academics interested in Lebanese Politics and the Middle East.

What causes violent conflicts around the Middle East? All too often, the answer is sectarianism—popularly viewed as a timeless and intractable force that leads religious groups to conflict. In *Everyday Sectarianism in Urban Lebanon*, Joanne Nucho shows how wrong this perspective can be. Through in-depth research with local governments, NGOs, and political parties in Beirut, she demonstrates how sectarianism is actually recalibrated on a daily basis through the provision of essential services and infrastructures, such as electricity, medical care, credit, and the planning of bridges and roads. Taking readers to a working-class, predominantly Armenian suburb in northeast Beirut called Bourj Hammoud, Nucho conducts extensive interviews and observations in medical clinics, social service centers, shops, banking coops, and municipal offices. She explores how group and individual access to services depends on making claims to membership in the dominant sectarian community, and she examines how sectarianism is not just tied to ethnoreligious identity, but also class, gender, and geography. Life in Bourj Hammoud makes visible a broader pattern in which the relationships that develop while procuring basic needs become a way for people to see themselves as part of the greater public. Illustrating how sectarianism in Lebanon is not simply about religious identity, as is commonly thought, *Everyday Sectarianism in Urban Lebanon* offers a new look at how everyday social exchanges define and redefine communities and conflicts.

Presents entries A to L of a two-volume encyclopedia discussing religion around the globe, including biographies, concepts and theories, places, social issues, movements, texts, and traditions.

This volume examines the causes and purposes of 'post-conflict' violence. The end of a war is generally expected to be followed by an end to collective violence, as the term 'post-conflict' that came into general usage in the 1990s signifies. In reality, however, various forms of deadly violence continue, and sometimes even increase after the big guns have been silenced and a peace agreement signed. Explanations for this and other kinds of violence fall roughly into two broad categories - those that stress the legacies of the war and those that focus on the conditions of the peace. There are significant gaps in the literature, most importantly arising from the common premise that there is one, predominant type of post-war situation. This 'post-war state' is often endowed with certain generic features that predispose it towards violence, such as a weak state, criminal elements generated by the war-time economy, demobilized but not demilitarized or reintegrated ex-combatants, impunity and rapid liberalization. The premise of this volume differs. It argues that features which constrain or encourage violence stack up in ways to create distinct and different types of post-war environments. Critical factors that shape the post-war environment in this respect lie in the war-to-peace transition itself,

above all the outcome of the war in terms of military and political power and its relationship to social hierarchies of power, normative understandings of the post-war order, and the international context. Drawing from theories of world society and from historical-sociological theories the book studies the past, present, and future of Middle East Christianity. It focuses on the interplay between local practices and post-colonial entanglements in global modernity. The chapters of this book engage, inspired by these theories, key empirical dynamics that affect Middle East Christianity. This includes a historical overview on the history of Christians in the region, the relationship between Islam and Christianity, as well as case studies on the Maronites in Lebanon, Egypt's Copts, the role of Protestant missionaries in the 19th century, processes of individualization amongst Middle East Christians, as well as papal diplomacy in the region.

“A fluent introduction to Syria’s recent past, this book provides the backstory to the country’s collapse into brutal civil conflict” (Andrew Arsan, author of *Lebanon: A Country in Fragments*). The fall of Syria into civil war over the past two years has spawned a regional crisis with reverberations growing louder in each passing month. In this timely account, John McHugo seeks to contextualize the headlines, providing broad historical perspective and a richly layered analysis of a country few in the United States know or understand. McHugo charts the history of Syria from World War I to the tumultuous present, examining the country’s thwarted attempts at independence, the French policies that sowed the seeds of internal strife, and the fragility of its foundations as a nation. He then turns to more recent events: religious and sectarian tensions that have divided Syria, the pressures of the Cold War and the Arab-Israeli conflict, and two generations of rule by the Assads. The result is a fresh and rigorous narrative that explains both the creation and unraveling of the current regime and the roots of the broader Middle East conflict. As the Syrian civil war threatens to draw the US military once again into the Middle East, here is a rare and authoritative guide to a complex nation that demands our attention. “Scholarly but accessible and of much interest to those with an eye on geopolitical matters.” –Kirkus Reviews “Useful as a concise overview of independent Syria’s most important movements and personalities, McHugo’s book gives readers the basic background necessary to understand the country.” –Publishers
