GRADE 10 □ LIFE ORIENTATION TASK 3 TOPIC: SOCIAL AND ENVIRONMENTAL RESPONSIBILITY

ED-L2L, Learning to Live in the Knowledge Society, is one of the co-located conferences of the 20th World Computer Congress (WCC2008). The event is organized under the auspices of IFIP (International Federation for Information Processing) and is to be held in Milan from 7th to 10th September 2008. ED-L2L is devoted to themes related to ICT for education in the knowledge society. It provides an international forum for professionals from all continents to discuss research and practice in ICT and education. The event brings together educators, researchers, policy makers, curriculum designers, teacher educators, members of academia, teachers and content producers. ED-L2L is organised by the IFIP Technical Committee 3, Education, with the support of the Institute for Educational Technology, part of the National Research Council of Italy. The Institute is devoted to the study of educational innovation brought about through the use of ICT. Submissions to ED-L2L are published in this conference book. The published papers are devoted to the published conference themes: Developing digital literacy for the knowledge society: information problem solving, creating, capturing and transferring knowledge, commitment to lifelong learning Teaching and learning in the knowledge society, playful and fun learning at home and in the school New models, processes and systems for formal and informal learning environments and organisations Developing a collective intelligence, learning together and sharing knowledge ICT issues in education - ethics, equality, inclusion and parental role Educating ICT professionals for the global knowledge society Managing the transition to the knowledge society

This book, Teaching Learners with Visual Impairment, focuses on holistic support to learners with visual impairment in and beyond the classroom and school context. Special attention is given to classroom practice, learning support, curriculum differentiation and assessment practices, to mention but a few areas of focus covered in the book. In this manner, this book makes a significant contribution to the existing body of knowledge on the implementation of inclusive education policy with learners affected by visual impairment.

A Learners Guide to Academic Success is an inspirational and motivational guidebook for school learners in primary and secondary school. This book is highly recommended for high school learners from Grade 8 all the way to Grade 12. This book is also a useful tool for teachers and parents as they can read and share the message with their learners/children. Mafule is passionate about education and spends most of his time participating and running

FBA projects such as career guidance, motivation sessions and mentorship in high schools and tertiary institutions in South Africa. Mafule has visited many schools across South Africa to encourage the culture of reading and academic excellence to thousands of learners as a way to help young people access higher levels of education. The schools that have been adopted under FBA have been performing very well and the learners have been able to access post-school opportunities. It is for those reasons that this book is written, to reach out to many young people of South Africa who need an inspirational voice. This inspirational and motivational guide book is a must read for all learners in South Africa who will like to achieve academic success.

Primary schoolchildren are frequently shielded from education on sexuality and sexually transmitted diseases in an effort to protect their innocence. In countries like South Africa, where AIDS is particularly widespread, it is especially important to address prevention with younger boys and girls as active social agents with the capacity to engage with AIDS as gendered and sexual beings. This volume addresses the question of children's understanding of AIDS, not simply in terms of their dependence but as active participants in the interpretation of their social worlds. The volume draws on an interview and ethnographic based study of young children in two socially diverse South African primary schools, as well as interviews conducted with teachers and mothers of young children. It shows how adults sustain the production of childhood sexual innocence, and the importance of scaling up programs in AIDS intervention, gender and sexuality. It makes significant contributions to the global debate around childhood sexualities, gender and AIDS education.

This book provides an overview of the research related to psychological assessment across South Africa. The thirty-six chapters provide a combination of psychometric theory and practical assessment applications in order to combine the currently disparate research that has been conducted locally in this field. Existing South African texts on psychological assessment are predominantly academic textbooks that explain psychometric theory and provide brief descriptions of a few testing instruments. Psychological Assessment in South Africa provides in-depth coverage of a range of areas within the broad field of psychological assessment, including research conducted with various psychological instruments. The chapters critically interrogate the current Eurocentric and Western cultural hegemonic practices that dominate the field of psychological assessment. The book therefore has the potential to function both as an academic text for graduate students, as well as a specialist resource for professionals, including psychologists, psychometrists, remedial teachers and human resource practitioners.

Motivation makes all the difference. And what's more motivating than the expectation of success? The instructions are clear and to the point, so students can quickly get down to writing practice in these 64-page worktexts. Helpful prompts pack the worktext lesson pages including illustrations, examples, and sample responses. Sample Content: book and movie reviews, travelogue, a character sketch, fashions.
