Britain during the early twentieth century through the lives and careers of ten artistes. Each presented some aspect of the national character which made people laugh at themselves. Many, including Lily Morris, Nellie Wallace and Billy Bennett, reached the top of their profession, and even the less well-known performers were once household names. All worked hard to develop their individual acts and found ways to adapt to the massive changes in society wrought by the First World War, the decline of the halls, the advent of Variety, and the shifting demands of an increasingly restless population. Some made a success in revue and others became popular stars of radio. Several of the subjects, such as Norman Long and Charlie Higgins have never been discussed before at such length. Included are many rare photographs, with full discographies, an extensive catalogue of sheet music and monologues for each individual. With the aim of bringing back to life an era and its people, the book serves as an introduction to the roots of modern entertainment.

Scousers believe they live in a special place, one that has more in common with Salvador da Bahia, New Orleans or Gdansk than anywhere in England, and the city has always punched above its weight. In less than a hundred years, however, Liverpool's image has declined from a major mercantile player known as the Second City of the Empire to what some social commentators have described as a cultural backwater remembered largely as the place where the Beatles were born. In *The Hurricane Port*, Andrew Lees reveals how Liverpool's pre-eminence in the slave trade left an indelible scar on the psychogeography of the city. He also explores the roots of Liverpool's contrary nature, its rebelliousness and its hedonism, as well as some of the recent hurricanes that have battered the city, including the anger of Toxteth, Militant's stand against Margaret Thatcher and the murder of James Bulger. In this distinctly personal account, Lees defines the characteristics of this Celtic enclave, with her loudmouthed, big-hearted

Bound for Boston with almost 400 people on board, the emigrant ship was soon ablaze with little chance of putting the flames out. People watched helplessly from their cottages along the Welsh coast as some ships ignored the travellers plight while others raced to their aid.
