The Way Things Are Quotes by Lucretius

De rerum natura (Latin : [deˈreːrʊˈn.naːtuːra]); On the Nature of Things) is a first-century BC didactic poem by the Roman poet and philosopher Lucretius (c. 99 BC – c. 55 BC) with the goal of explaining Epicurean philosophy to a Roman audience.

De rerum natura - Wikipedia

“It's easier to avoid the snares of love than to escape once you are in that net whose cords and knots are strong; but even so, enmeshed, entangled, you can still get out unless, poor fool, you stand in your own way.” ? Lucretius, The Way Things Are

Lucretius Quotes (Author of The Way Things Are)

Lucretius regarded him as the spiritual savior of mankind. Epicureanism was a missionary philosophy, aiming to give man happiness by making him self-sufficient. Its key teachings included: Study science in order to rid yourself of unnecessary fears, especially of the gods and death. Sensation is the basis of all knowledge.

Lucretius De Rerum Natura Summary - McGoodwin

That world does things in order: things have their seeds, and nothing is ever destroyed utterly. Atoms are imperceptible, so Lucretius must also prove the existence of invisible particles.

Lucretius, part 2: all things are made of atoms ...

Civilization first flowered in Athens, and the greatest flower of Athens was a man – Epicurus - who discovered and brought to us the complete truth about the way things are, and as a result the glory of Epicurus makes him seem to us almost as a divinity himself.

Lucretius - On The Nature of Things []

PREFACE No one can set about translating Lucretius into English without finding his head full of the great work of H. A. J. Munro. It is not only that certain striking phrases ring in one's ears--'dai claustra,' 'the fastnesses of life,' 'olu UrminuJ baerms,' 'the deepset boundary-mark,' &c.- but one is possessed with a strong feeling that he has

LUCRETIUS ON THE NATURE OF THINGS - Liberty Fund

Titus Lucretius Carus was a Roman poet and philosopher. His only known work is the philosophical poem De rerum natura, a didactic work about the tenets and philosophy of Epicureanism, and which usually is translated into English as On the Nature of Things. Lucretius has been credited with originating the concept of the three-age system that was formalised in 1836 by C. J. Thomsen. Very little is known about Lucretius's life; the only certain fact is, that he was either a friend or client of Gaius

Body comes in minute and physically indivisible portions, atoms—although Lucretius does not use this Greek loan-word, and prefers a series of circumlocutions such as ‘first beginnings of things’ (primordia rerum), ‘seeds’, and ‘matter’ (materies, derived from mater, ‘mother’), which serve his poetic purposes by evoking the creative powers of these primary particles. It is by their combination into complex structures that all phenomenal beings are generated.
