The cereal packet family is a functionalist concept which argues that the idealised version of the family is the nuclear family of mother, father and two children. This is an idea based on the 1950s version of the family and household, ignoring the fact that the families have changed in structure and diversity. For example; the cereal packet family does not describe same-sex relationships as they do not fit the stereotypical mold this rigid family structure puts in place.

Celebrating the sesquicentennial anniversary of the completion of the first transcontinental railroad in the United States , *After Promontory: One Hundred and Fifty Years of Transcontinental Railroading* profiles the history and heritage of this historic event. Starting with the original Union Pacific—Central Pacific lines that met at Promontory Summit, Utah, in 1869, the book expands the narrative by considering all of the transcontinental routes in the United States and examining their impact on building this great nation. Exquisitely illustrated with full color photographs, *After Promontory* divides the western United States into three regions—central, southern, and northern—and offers a deep look at the transcontinental routes of each one. Renowned railroad historians Maury Klein, Keith Bryant, and Don Hofsommer offer their perspectives on these regions along with contributors H. Roger Grant and Rob Krebs.

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

For he spake--The gates of divinity part and out rush predatory birds. The taste of strawberries. The shepherd raises their right hand, breaks bread. An owl by any other name. There is a merry gaiety in harvesting human teeth from nectarous fruit.--and it was done. He commanded--A hellscape of rot and rut. Brittle angels and biting insects. Flutes salt the earth. The corpse of a coelacanth dissolves into pastel foam. Sibilant language chewing women, ushering neurotoxins, belching charred oak. And, then, rain.--and it stood fast.
