From prenatal through postpartum care, Gloria Leifer's Maternity Nursing: An Introductory Text provides an essential foundation for promoting the health and wellness of mothers and newborns. This edition includes the latest advances and practice standards in maternity nursing care, highlighting Healthy People 2020 and the 2011 Joint Commission National Patient Safety Goals. Part of the popular LPN Threads series, this text addresses the knowledge, skills, and scope of practice appropriate for LPN/LVN and LPN/LVN-to-ADN ladder programs. Chronological organization of content follows a sequence from family issues, fetal development, pregnancy, labor, birth, and care of the newborn, to postpartum issues with special social, familial, and cultural considerations. Organization of concepts in each chapter by simple to complex and from health to illness makes it easier to locate and understand the material. Complete, concise coverage includes a table of physiologic and psychosocial changes throughout the pregnancy, unique content on CPR for the pregnant patient and infectious diseases acquired during pregnancy, a pictorial story of a vaginal birth, cultural considerations of pregnancy and maternal care, and nursing responses to loss, death, and grief. UNIQUE! A FREE Study Guide in the back of the book reinforces understanding with multiple-choice, fill-in-the-blank, scenario-based clinical situation questions, and online activities. Nursing Care Plans with critical thinking questions help in understanding how a care plan is developed, how to evaluate care of a patient, and how to apply your knowledge to clinical scenarios. Health Promotion boxes and content focus on family-centered care, health promotion, illness prevention, and women's health issues. Clinical Pathways use an interdisciplinary, collaborative-care approach in tracking interventions along a timeline from assessment to discharge and follow up. Online resources for further

research and study are included at the end of each chapter. UNIQUE! LPN Threads make learning easier, featuring a 10th-grade reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design.

Patricia Castaldi, RN, MSN 1999. 432 pp., 100 illus. Includes Chapter Openers with concise Chapter Outlines that guide students through the content and Learning Objectives to help them focus their studying. Includes striking new photographs that bring to life the many current themes and new and improved products and equipment in maternity nursing. Includes Clinical Pathways where appropriate to reflect collaborative care. Expands content in the Womens Health Issues. Includes striking new photographs that bring to life the many current themes and new and improved products and equipment in maternity nursing. Contains a new chapter on Complementary and Alternative Therapies that explores the wide range of nontraditional therapies that offer pain relief during labor and childbirth, a decrease in nausea during pregnancy, and coping strategies for stress. Provides a free built-in Selfworkbook at the back of the book that includes Clinical Situations, Internet Activities, and multiple questions with answers in the Instructors Manual. Includes Clinical Pathways where appropriate to reflect collaborative care. Expands content in the Womens Health Issues chapter with more information on major gynecological concerns, sexually transmitted diseases, and violence/rape trauma. Incorporates Fast Focus boxes throughout the text, providing content pieces that highlight important information. Contains Critical Thinking Activities which encourage the student to assimilate and synthesize information, then to apply it using critical thinking skills. Includes many new tables as well as reorganized and streamlined content to make accessing important information easier, more efficient, and user friendly. Adds a second color to highlight and accentuate many illustrations and important information. Contains updated bibliographies, including the new Healthy People 2010 objectives.

This full-color LPN/LVN-level textbook presents maternity nursing using a nursing process framework. Throughout the text are features that help students develop critical thinking skills and apply content to practice—such as nursing procedures, nursing care plans, clinical pearls, patients' and caregivers' stories, critical thinking questions, cultural snapshots, family teaching tips, and over 200 illustrations. Each chapter is followed by an integrated study guide/workbook with NCLEX®-style questions, Critical Thinking: What Would You Do? scenarios including dosage calculations, and Study Activities including Internet activities. Introductory Maternity Nursing is an ideal complement to Hatfield, Broadribb's Introductory Pediatric Nursing, Sixth Edition. Instructors who prefer a combined maternity/pediatric text can use Klossner/Hatfield, Introductory Maternity and Pediatric Nursing.
