Our ICSE Physics, Chemistry and Biology Semester 1 Sample Paper MCQ Book includes 10 Sample Papers (Solved & Unsolved) for maximum 2021 Semester 1 practice with MCQs that are based on the latest paper pattern. After 7 quality checks, these books make the most preferred final revision book for ICSE Boards.

In machine design or design of machine elements we study about the design of individual components of machinery like shafts, keys, belts, bolts, gears, etc. In mechanical system design we means that how these components are going to work in collaboration, reliability of the system when different components work together. This book includes design of conveyors for material handling systems (belt conveyors), design of multispeed gearbox for machine tools, design of I.C. engine components and optimum design. It also includes the design of pressure vessels used in mechanical systems. This book provides a systematic exposition of the basic concepts and techniques involved in design of mechanical systems. Our hope is that this book, through its careful explanations of concepts, practical examples and figures bridges the gap between knowledge and proper application of that knowledge.

• Strictly as per the new Semester wise syllabus for Board Examinations to be held in the academic session 2021-22 for class -10 • Largest pool of Topic wise MCQs based on different typologies • Answer Key with explanations • Revision Notes for in-depth study • Mind Maps & Mnemonics for quick learning • Concept videos for blended learning • Includes Topics found Difficult & Suggestions for students. • Dynamic QR code to keep the students updated for 2021 Exam paper or any further CISCE notifications/circulars
