*Software Life*

The standard  
"Medical Device  
Software -  
Software Life  
Cycle Processes"

(IEC 62304) is  
the first  
standard to be  
considered when  
looking at the  
software life  
cycle. The  
standard

# Access Free Medical Device

describes life  
cycle processes  
and assigns  
certain

activities and  
tasks to them.

It applies to  
the development  
and maintenance  
of medical  
software. It  
does not matter  
whether the  
software itself

# Access Free Medical Device

is a medical device or whether it is used as an embedded or integral part of a medical device.
