Millennial Hospitality II is an etiquette book for the 21 Century. It suggests how we might interact with aliens and answers many questions the readers had after reading Millennial Hospitality.

Readers of previous four books in the Millennial Hospitality series, will be surprised, as one advance reader was, to see Millennial Hospitality V, The Grays, is about a totally different group of Extraterrestrials. In this latest book, Charles will walk you through his two separate TDYs (temporary duty) in the valley of the Grays. Charles also lays out what he believes actually happened during the events surrounding the 1947 Roswell Crash. There is also a short section of credible updates.

Millennial Hospitality is not like any other book you may have read about aliens. You will find out many new things such as, the answer to the question, "where do the children of aliens play?" This book is about friendship, romance, terror and is based on the true life experiences of the author, who claims he is not an alien.

--. He called the bridegroom aside and said, "Everyone brings out the choice wine first and then the cheaper wine after the guests have had too much to drink; but you have saved the best till now." -- John 2:9,10 The Road Home is full of suspense and more than a few surprises.

Read the Review! This book is about Life including our humanities. It is about the exposure of almost everything we are taught to believe in is lies or based on lies excluding our sciences. It explains what has taken control of all Life, how it spread it's malice over Earth, what it's purpose is and what will happen if we humans don't get off our knees.

In the first three volumes of his memoirs concerning experiences while serving at Nellis Air Force Base, Charles Hall gave astonishing testimony of having met with 'Tall White' extraterrestrials located at a secret underground facility at Nellis. Three independent witnesses have come forward to confirm important parts of Hall's testimony. Hall is a credible witness of extraterrestrials having reached agreements with U.S. military officials. This fourth volume offers more startling details that

help confirm his experiences and help usher in new era of official disclosure of extraterrestrial life. Micheal E. Salla, Ph.D. President and Founder, The Exopolitics Institute Charles Hall's report (Millennial Hospitality I-III) of his encounters and deep interactions with tall humanoid beings living on the USAF Nellis Range remains without serious challenge to this day. And this is remarkable, as its implications are so radical; they reveal an entrenched presence in the American Southwest that predates the arrival of Euro-Americans in the area, and that continues with covert protection and support from the U.S. government while maintaining communications with a distant home location. Hall's powerful and entirely self-consistent narrative, filled with surprising and revealing detail, is so impressive that I have chosen it as the only example of modern human-ET contact to receive major coverage in my web pages. Gerry Zeitlin, "Open Seti Initiative" www.openseti.org It is possible that eventually the story Charles Hall tells will be seen as a pivotal moment in UFOlogy. His story has become the key to linking a disparate series of reports, encounters and claims that have circulated in UFO circles without a home for many years. This fourth and final account gives us the most detailed look ever into one aspect of a covert military-alien liaison that has been underway for decades. Essential reading! Warren P. Aston, Researcher, Author.
