God speaks to Noah and tells him to build an Ark. Noah builds the Ark and gets it ready for the flood. In this session children learn a happy dance, then a contrasting angry, stamping dance.

Basing their research on geophysics, oral legends, and archaeology, the authors offer evidence that the flood in the book of Genesis actually occurred.

Basing their research on geophysics, oral legends, and archaeology, the authors offer evidence that the flood in the book of Genesis actually occurred

Using rocks as proof, a geologist examines the great flood stories found in many cultures and religions and travels across countries and landscapes to discover a place where theology and science converge. 13,000 first printing.

An exploration of the origins, development, and varying interpretations of the ancient story of Noah's flood, and an assessment of its impact on the history of ideas. It includes accounts of the scholars and theologians who have endorsed or rejected the flood story.

Over fifty years ago Henry Morris and John Whitcomb joined together to write a controversial book that sparked dialogue and debate on Darwin and Jesus, science and the Bible, evolution and creation -- culminating in what would later be called the birth of the modern creation science movement. Now, fifty years, forty-nine printings, and 300,000 copies after the initial publication of The Genesis Flood, P&R Publishing has produced a fiftieth anniversary edition of this modern classic. - Back cover.

"Hundreds of flood legends from around the world have details strikingly similar to the biblical account of Noah and the Ark. Why are there so many similarities in so many diverse cultures? What can we learn of the pre-Flood world from ancient and archaeological records? See how the flood account of a remote people group in China is like the flood legend of gypsies in Transylvania, and like many other societies from almost every continent. . . . presented with an interactive experience of flaps, mini-books, foldouts, and more!"--AnswersInGenesis.org web page.

The recent translation of a Babylonian tablet launches a groundbreaking investigation into one of the most famous stories in the world, challenging the way we look at ancient history. Since the Victorian period, it has been understood that the story of Noah, iconic in the Book of Genesis, and a central motif in Judaism, Christianity and Islam, derives from a much older story that existed centuries before in ancient Babylon. But the relationship between the Babylonian and biblical traditions was shrouded in mystery. Then, in 2009, Irving Finkel, a curator at the British Museum and a world authority on ancient Mesopotamia, found himself playing detective when a member of the public arrived at the museum with an intriguing cuneiform tablet from a family collection. Not only did the tablet reveal a new version of the Babylonian Flood Story; the ancient poet described the size and completely unexpected shape of the ark, and gave detailed boat building specifications. Decoding this ancient message wedge by cuneiform wedge, Dr. Finkel discovered where the Babylonians believed the ark came to rest and developed a new explanation of how the old story ultimately found its way into the Bible. In The Ark Before Noah, Dr. Finkel takes us on an adventurous voyage of discovery, opening the door to an enthralling world of ancient voices and new meanings.

The story of Noah and the flood is one of the most familiar of the Bible stories we teach our children. It has a valuable mix of justice and mercy that children need to hear.

The apostle Peter warned us that in the last days before the end times, there would be a new philosophy that would deny that there ever was a worldwide flood. They would deny that God created the world, the existence of God, and the coming end time judgment by fire. Today we see this taking place exactly as Peter had predicted. This book provides proof of a Biblical worldwide flood and backs it up with geological data. The information in this book offers evidence of creation by an omnipotent God and a global flood as God's judgment of a sinful world. It provides evidence as to what the earth was like before the flood. It was a world, which after creation God had declared very good. Even after the fall of man, it was still paradise compared with the world we know today. The effects of catastrophic worldwide flood changed this planet drastically. This book also offers extensive proof that disproves the theory of evolution. New scientific discoveries are showing that evolution is impossible. Also contained in this book is considerable scientific evidence, showing that the earth is only a few thousand years old. This book may go against much of the popular scientific views of today, but it does so with the evidence to back it. The Bible gave us the history as well as the future of this world. The scientific and geological data that is available today fits well within that Biblical framework. In fact, it fits within the Biblical framework much better than any theories the evolutionary community has come up with, as this book will show.
