Nutrition And Digestion Study Guide

Introduction to Nutrition and Digestion. Nutrition refers to the activities by which living things obtain raw materials from the environment and transport them into their cells. The cells metabolize these raw materials and synthesize structural components, enzymes, energy-rich compounds, and other biologically important substances. All the elements and compounds taken into a living thing are nutrients.

They make bile and enzymes (pancreatic juices) that help digest food. chyme is digested and nutrients are absorbed to the bloodstream absorbs water and stores waste releases waste from body stores feces digests food by churning and mixing with gastric juices (acid & enzyme) passageway from mouth to stomach beginning of digestion; food is broken down produces enzymes produces bile stores bile

DIGESTIVE SYSTEM STUDY GUIDE - Kyrene School District

In the human digestive system, large organic masses are broken down into smaller particles that the body can use as fuel. This is a complex process. The breakdown of the nutrients requires the coordination of several enzymes secreted from specialized cells within the mouth, stomach, intestines, and liver. The major organs or structures that coordinate digestion within the human body include the mouth, esophagus, stomach, small and large intestines, and liver.

Digestion Study Guide Answers Active transport – The process by which materials, using energy from the cells, are moved across the membrane. Peristalsis – Circular and longitudinal layers of muscle that work together to produce wavelike motions. These motions push food through the digestive tract.

Digestion Study Guide Answers Active transport Peristalsis

Nutrition describes the ways an animal balances the consumption, storage and use of food. Herbivores (like zebras) are those animals that don't eat meat, and rely on plants and algae for their nutrition. Carnivores (like lions) primarily eat other animals, and omnivores (like us humans) will eat just about anything. We mean that as a compliment.
